  - (3) makes or uses any false writing or document knowing the same to contain any materially false, fictitious, or fraudulent statement or entry; shall be fined under this title, imprisoned not more than 5 years....
- 42. The Health Care Fraud statute, at 18 U.S.C. § 1347, provides, in pertinent part, as follows:

Whoever knowingly and willfully executes, or attempts to execute, a scheme or artifice—

- (1) to defraud any health care benefit program; or
- (2) to obtain, by means of false or fraudulent pretenses, representations, or promises, any of the money or property owned by, or under the custody or control of, any health care benefit program,

in connection with the delivery of or payment for health care benefits, items, or services, shall be fined under this title or imprisoned not more than 10 years, or both. If the violation results in serious bodily injury (as defined in section 1365 of this title), such person shall be fined under this title or imprisoned not more than 20 years, or both; and if the violation results in death, such person shall be fined under this title, or imprisoned for any term of years or for life, or both.

43. The Health Care Fraud criminal conspiracy statute, at 18 U.S.C. § 1349, provides, in pertinent part, as follows:

Any person who attempts or conspires to commit any offense under this chapter shall be subject to the same penalties as those prescribed for the offense, the commission of which was the object of the attempt or conspiracy.

- 44. Section 1128B of the Social Security Act, at 42 U.S.C. § 1320a-7b (sometimes referenced as the "Anti-Kickback Statute" or "AKS" or "AKS Statute"), provides, in pertinent part, as follows:
  - (a) Making or causing to be made false statements or representations Whoever—
  - (1) knowingly and willfully makes or causes to be made any false statement or representation of a material fact in any application for any benefit or payment under a Federal health care program (as defined in subsection (f) of this section),
  - (2) at any time knowingly and willfully makes or causes to be made any false statement or representation of a material fact for use in determining rights to such benefit or payment,
  - (3) having knowledge of the occurrence of any event affecting
  - (A) his initial or continued right to any such benefit or payment, or
  - (B) the initial or continued right to any such benefit or payment of any other individual in whose behalf he has applied for or is receiving such benefit or payment, conceals or fails to disclose such event with an intent fraudulently to secure such benefit or payment either in a greater amount or quantity than is due or when no such benefit or payment is authorized,
  - (4) having made application to receive any such benefit or payment for the use and benefit of another and having received it, knowingly and willfully converts such benefit or payment or any part
  - thereof to a use other than for the use and benefit of such other person, ... shall
  - (i) in the case of such a statement, representation, concealment, failure, or conversion by any person in connection with the furnishing (by that person) of items or services for which payment is or may be made under the program, be guilty of a felony and upon conviction thereof fined not more than \$25,000 or imprisoned for not more than five years or both, or
  - (ii) in the case of such a statement, representation, concealment, failure, conversion, or provision of counsel or assistance by any other person, be guilty of a misdemeanor and upon conviction thereof fined not more than \$10,000 or imprisoned for not more than one year, or both. In addition, in any case where an individual who is otherwise eligible for assistance under a Federal health care program is convicted of an offense under the preceding provisions of this subsection, the administrator of such program may at its option (notwithstanding any other provision of such program) limit, restrict, or suspend the eligibility of that individual for such period (not exceeding one year) as it deems appropriate; but the imposition of a limitation, restriction, or suspension with respect to the eligibility of any individual under this sentence shall not affect the eligibility of any other person for assistance under the plan, regardless of the relationship between that individual and such other person....

- (b) Illegal remunerations
- (1) whoever knowingly and willfully solicits or receives any remuneration (including any kickback, bribe, or rebate) directly or indirectly, overtly or covertly, in cash or in kind--

- 46. Section 1128 of the Social Security Act (the "Exclusions Statute"), at 42 U.S.C. § 1320a-7(b)(6) (sometimes referenced as the "Substantially-in-Excess Rules" or "SIE Rules"), provides a permissive exclusion from participation in federal health benefits programs for any individual person or entity who:
  - (A) has submitted or caused to be <u>submitted bills</u> or requests for payment (where such bills or requests are based on charges or cost) under subchapter XVIII of this chapter or a State health care program containing charges (or, in applicable cases, requests for payment of costs) for items or services furnished <u>substantially in excess of such individual's or entity's usual charges</u> (or, in applicable cases, substantially in excess of such individual's or entity's costs) for such items or services, unless the Secretary finds there is good cause for such bills or requests containing such charges or costs;
  - (B) has furnished or caused to be <u>furnished items or services to patients</u> (whether or not eligible for benefits under subchapter XVIII of this chapter or under a State health care program) <u>substantially in excess of the needs of such patients</u> or of a quality which fails to meet professionally recognized standards of health care;

(emphasis added)

- 47. Section 1128 of the Social Security Act (the "Exclusions Statute"), at 42 U.S.C. § 1320a-7(b)(7), provides a permissive exclusion from participation in federal health benefits programs for any individual person or entity who "has committed an act which is described in ..." Section 1320a-7a (the CMP Statute) or Section 1320a-7b (the AKS Statute).
- 48. The Georgia State False Medicaid Claims Act, O.C.G.A. Section 49-4-168.1, provides in pertinent part, as follows:

shall be liable to the State of Georgia for a civil penalty of not less than \$5,500.00 and not more than \$11,000.00 for each false or fraudulent claim, plus three times the amount of damages which the Georgia Medicaid program sustains because of the act of such person.

- 49. The North Carolina False Claims Act, N.C Gen. Stat., Article 51, Section 1-607, provides in pertinent part, as follows:
  - (a) Liability. Any person who commits any of the following acts shall be liable to the State for three times the amount of damages that the State sustains because of the act of that person. A person who commits any of the following acts also shall be liable to the State for the costs of a civil action brought to recover any of those penalties or damages and shall be liable to the State for a civil penalty of not less than five thousand five hundred dollars (\$5,500) and not more than eleven thousand dollars (\$11,000) for each violation:

- (4) Has possession, custody, or control of property or money used or to be used by the State and knowingly delivers or causes to be delivered less than all of that money or property.
- (5) Is authorized to make or deliver a document certifying receipt of property used or to be used by the State and, intending to defraud the State, makes or delivers the receipt without completely knowing that the information on the receipt is true.
- (6) Knowingly buys, or receives as a pledge of an obligation or debt, public property from any officer or employee of the State who lawfully may not sell or pledge the property.
- (7) Knowingly makes, uses, or causes to be made or used, a false record or statement material to an obligation to pay or transmit money or property to the State, or knowingly conceals or knowingly and improperly avoids or decreases an obligation to pay or transmit money or property to the State.
- 50. The South Carolina Code, at Section 38-55-170, entitled "Presenting false claims for payment," provides as follows:

A person who knowingly causes to be presented a false claim for payment to an insurer transacting business in this State, to a health maintenance organization transacting business in this State, or to any person, including the State of South Carolina, providing benefits for health care in this State, whether these benefits are administered directly or through a third person, or who knowingly assists, solicits, or conspires with another to present a false claim for payment as described above, is guilty of a:

- (1) felony if the amount of the claim is ten thousand dollars or more. Upon conviction, the person must be imprisoned not more than ten years or fined not more than five thousand dollars, or both;
- (2) felony if the amount of the claim is more than two thousand dollars but less than ten thousand dollars. Upon conviction, the person must be fined in the discretion of the court or imprisoned not more than five years, or both;
- (3) misdemeanor triable in magistrates court or municipal court, notwithstanding the provisions of Sections 22-3-540, 22-3-545, 22-3-550, and 14-25-65, if the amount of the claim is two thousand dollars or less. Upon conviction, the person must be fined not more than one thousand dollars, or imprisoned not more than thirty days, or both.

- 51. The South Carolina Code, at Section 43-7-60, sometimes referenced as South Carolina's "Medicaid Fraud Statute," provides in part as follows: "(B) It is unlawful for a provider of medical assistance, goods, or services to knowingly and wilfully make or cause to be made a false claim, statement, or representation of a material fact: (1) in an application or request, including an electronic or computer generated claim, for a benefit, payment, or reimbursement from a state or federal agency which administers or assists in the administration of the state's medical assistance or Medicaid program[.]"
- 52. Medicare is considered a "health care benefit program" as defined by 18 U.S.C. § 24 and/or a "health care program" as defined by 42 U.S.C. § 1320a-7b(f), and is subject to the federal FCA, including its provisions prohibiting false and fraudulent claims for payment with respect thereto.
- 53. Medicaid is considered a "health care benefit program" as defined by 18 U.S.C. § 24 and/or a "health care program" as defined by 42 U.S.C. § 1320a-7b(f), and is subject to the federal FCA, including its provisions prohibiting false and fraudulent claims for payment with respect thereto.
- 54. Skilled nursing facilities such as the Defendant Nursing Homes are reimbursed by Medicare under the Prospective Payment System (PPS) whereby the facilities are paid a predetermined daily rate for each day of skilled nursing and rehabilitation services it provides to a patient. 63 Fed. Reg. 26, 252, 26, 259-60 (May 12, 1998).
- 55. The daily PPS rate paid to a skilled nursing facility depends in part on the Resource Utilization Group (RUG) level to which a patient is assigned. Each distinct RUG is intended to reflect the anticipated costs associated with providing nursing and rehabilitation services to beneficiaries with similar characteristics or resource needs.

- 56. Medicaid is a joint federal/state program. The majority of funds come from the Federal government. Each state has a federal participation rate, and each state sets the payment to skilled nursing facility providers by adopting a Long Term Care Reimbursement Plan. Each state's Reimbursement Plan sets out how Medicaid reimburses for skilled nursing facility care.
- 57. Since March 23, 2010, the Social Security Act, at 42 U.S.C. § 1320a-7k(d), has required health care providers who receive or retain federal health care program overpayments to report and return the overpayments within 60 days of identification of said overpayments. A health care provider who receives or retains federal health care program funds in violation of AKS must return such funds as overpayments. A failure to timely return such overpayments is subject to a reverse false claim under the FCA. The statute provides, in pertinent part, as follows:
  - (d) Reporting and Returning of Overpayments.—
  - (1) In general.—If a person has received an overpayment, the person shall—
  - (A) report and return the overpayment to the Secretary, the State, an intermediary, a carrier, or a contractor, as appropriate, at the correct address; and
  - (B) notify the Secretary, State, intermediary, carrier, or contractor to whom the overpayment was returned in writing of the reason for the overpayment.
  - (2) Deadline for reporting and returning overpayments.—An overpayment must be reported and returned under paragraph (1) by the later of—
  - (A) the date which is 60 days after the date on which the overpayment was identified; or
  - (B) the date any corresponding cost report is due, if applicable.
  - (3) Enforcement.—Any overpayment retained by a person after the deadline for reporting and returning the overpayment under paragraph (2) is an obligation (as defined in section 3729(b)(3) of title 31, United States Code) for purposes of section 3729 of such title.
  - (4) Definitions.—In this subsection:
  - (A) Knowing and knowingly.—The terms "knowing" and "knowingly" have the meaning given those terms in section 3729(b) of title 31, United States Code.

- (B) Overpayment.—The term "overpayment" means any funds that a person receives or retains under title XVIII or XIX to which the person, after applicable reconciliation, is not entitled under such title.
- 58. CMS Provider Reimbursement Manual, 15-1, at Chapter 10, entitled "Cost To Related Organizations," provide as follows:

1000. PRINCIPLE. <u>Costs</u> applicable to services, facilities, and supplies <u>furnished to the provider by organizations related to the provider</u> by common ownership or control are includable in the allowable cost of the provider <u>at the cost to the related organization</u>. However, <u>such cost must not exceed the price of comparable services</u>, facilities, or supplies <u>that could be purchased elsewhere</u>. The purpose of this principle is two-fold: (1) to avoid the payment of a profit factor to the provider through the related organization (whether related by common ownership or control), and (2) to avoid payment of artificially inflated costs which may be generated from less than arm's-length bargaining.

#### 1002. DEFINITIONS --

- 1002.1 Related to the provider means that the provider to a significant extent is associated or affiliated with or has control of or is controlled by the organization furnishing the services, facilities, or supplies.
- 1002.2 Common ownership exists if an individual or individuals possess significant ownership or equity in the provider and the institution or organization serving the provider.
- 1002.3 Control exists if an individual or an organization has the power, directly or indirectly, significantly to influence or direct the actions or policies of an organization or institution.

# 1004. DETERMINATION OF COMMON OWNERSHIP OR CONTROL IN THE PROVIDER ORGANIZATION AND SUPPLYING ORGANIZATION

In determining whether a provider organization is related to a supplying organization, the tests of common ownership and control are to be applied separately. If the elements of common ownership or control are not present in both organizations, the organizations are deemed not to be related to each other. The existence of an immediate family relationship will create an irrebuttable presumption of relatedness through control or attribution of ownership or equity interests where the significance tests of sections 1002.2 and 1002.3 above are met. The following persons are considered immediate family for Medicare program purposes: (1) husband and wife, (2) natural parent, child and sibling, (3) adopted child and adoptive parent, (4) step-parent, step-child, step-sister, and step-brother,

(5) father-in-law, mother-in-law, sister-in-law, brother-in-law, son-in-law, and daughter-in-law, (7) grandparent and grandchild.

#### 1004.1 Common Ownership Rule

A determination as to whether an individual (or individuals) or organization possesses significant ownership or equity in the provider organization and the supplying organization, so as to consider the organizations related by common ownership, will be made on the facts and circumstances in each case. This rule applies whether the provider organization or supplying organization is a sole proprietorship, partnership, corporation, trust or estate, or any other form of business organization, proprietary or nonprofit. In the case of a nonprofit organization, ownership or equity interest will be determined by reference to the interest in the assets of the organization (e.g., a reversionary interest provided for in the articles of incorporation of a nonprofit corporation).

### 1004.2 Examples of Common Ownership

The following examples illustrate the general application of the common ownership rule. The percentages used are for illustrative purposes only and are not intended to prescribe objective rules for determining when significant ownership or equity in an organization exists. Substantially lower percentages could still constitute significant ownership. Such a determination must be made on the basis of the facts and circumstances in each case.

## Example No. 1--Direct Ownership

Mr. B owns a 60 percent interest in the provider organization and a 55 percent interest in an organization supplying the provider. The provider and the supplying organization are considered related by common ownership since Mr. B possesses significant ownership in both organizations.

# Example No. 2--Dispersion of Ownership

Mr. X owns a 70 percent interest in the provider organization and a 40 percent interest in the supplying organization. The remaining 60 percent interest in the supplying organization is owned in equal amounts by twenty individuals unrelated to Mr. X. Unless the provider can demonstrate to the satisfaction of the intermediary that Mr. X's concentrated ownership interest in the supplying organization is not significant, the organizations are considered related to each other by common ownership.

Example No. 3--Attribution of Ownership

Mr. L owns 20 percent of the outstanding shares of a corporate provider and a 50 percent interest in the supplying organization, a partnership. Ms. L, Mr. L's spouse, owns 30 percent of the outstanding shares of the provider corporation. Because Mr. and Ms. L cumulatively hold 50 percent of the provider and Mr. L owns 50 percent of the supplier, the organizations are considered related by common ownership.

#### 1004.3 Control Rule

The term "control" includes any kind of control, whether or not it is legally enforceable and however it is exercisable or exercised. <u>It is the reality of the control</u> which is decisive, not its form or the mode of its exercise....

#### 1005. DETERMINATION OF A RELATED ORGANIZATIONS'S COSTS

The related organization's costs include all reasonable costs, direct and indirect, incurred in the furnishing of services, facilities, and supplies to the provider. The intent is to treat the costs incurred by the supplier as if they were incurred by the provider itself. Therefore, if a cost would be unallowable if incurred by the provider itself, it would be similarly unallowable to the related organization. The principles of reimbursement of provider costs described elsewhere in this manual will generally be followed in determining the reasonableness and allowability of the related organization's costs, except where application of a principle in a nonprovider entity would be clearly inappropriate (e.g., Chapter 22, Determination of Cost of Services to Beneficiaries; Chapter 23, those portions pertaining to cost finding; Chapter 24, Payments to Providers; Chapter 25, Limitations on Coverage of Costs; and Chapter 26, Lower of Cost or Charges). In situations where the provider is a proprietary organization (as defined in section 1202.4), an allowance of a reasonable return on equity capital invested and used in furnishing services, facilities and supplies to the related provider is includable as an element of the reasonable cost of the related organization. The general rules specified in section 1200ff for inclusion and exclusion of certain assets and liabilities in the computation of equity capital for providers will be similarly applied to the assets and liabilities of the related organization.

The provider must make available to the intermediary when requested adequate documentation to support the costs incurred by the related organization, including, when required, access to the related organization's books and records, attributable to supplies and services furnished to the provider. Such documentation must include an identification of the organization's total costs, the basis of allocation of direct and indirect costs to the provider, and other entities served.

1010. EXCEPTION TO THE RELATED ORGANIZATION PRINCIPLE

An exception is provided to the general rule applicable to related organizations. The exception applies if the provider demonstrates by convincing evidence to the satisfaction of the intermediary that the following criteria have been met:

- a. The supplying organization is a **bona fide separate organization**. This means that the supplier is a separate sole proprietorship, partnership, joint venture, association or corporation and not merely an operating division of the provider organization.
- b. A <u>substantial part of the supplying organization's business activity</u> of the type carried on with the provider <u>is transacted with other organizations not related to the provider</u> and the supplier by common ownership or control <u>and</u> there is <u>an open, competitive market for</u> the type of <u>services, facilities, or supplies furnished by the organization</u>. In determining whether the activities are of similar type, it is important to also consider the scope of the activity. For example, a full service management contract would not be considered the same type of business activity as a minor data processing contract. The requirement that there be an open, competitive market is merely intended to assure that the item supplied has a readily discernible price that is established through arm's-length bargaining by well-informed buyers and sellers.
- c. The services, facilities, or supplies are those which commonly are obtained by institutions such as the provider from other organizations and are not a basic element of patient care ordinarily furnished directly to patients by such institutions. This requirement means that institutions such as the provider typically obtain the items of services, facilities, or supplies from outside sources, rather than producing the item internally.
- d. The charge to the provider is in line with the charge for such services, facilities, or supplies in the open market and no more than the charge made under comparable circumstances to others by the organization for such services, facilities, or supplies. The phrase "open market" takes the same meaning as "open, competitive market" in b. above.

Where all of the conditions of this exception are met, the charges by the supplier to the provider for such services, facilities, or supplies are allowable as costs.

(emphasis added)

59. Medicare regulations, at 42 C.F.R. § 413.17, entitled "Cost To Related

Organizations," provide as follows:

(a) Principle. Except as provided in paragraph (d) of this section, <u>costs</u> applicable to services, facilities, and supplies <u>furnished to the provider by organizations</u> <u>related to the provider</u> by common ownership or control are includable in the

allowable cost of the provider <u>at the cost to the related organization</u>. However, <u>such cost must not exceed the price of comparable services</u>, facilities, or supplies that could be purchased elsewhere.

- (b) Definitions--
- (1) Related to the provider. Related to the provider means that the provider to a significant extent is associated or affiliated with or has control of or is controlled by the organization furnishing the services, facilities, or supplies.
- (2) Common ownership. Common ownership exists if an individual or individuals possess significant ownership or equity in the provider and the institution or organization serving the provider.
- (3) Control. Control exists if an individual or an organization has the power, directly or indirectly, significantly to influence or direct the actions or policies of an organization or institution.
- (c) Application.
- (1) Individuals and organizations associate with others for various reasons and by various means. Some deem it appropriate to do so to assure a steady flow of supplies or services, to reduce competition, to gain a tax advantage, to extend influence, and for other reasons. These goals may be accomplished by means of ownership or control, by financial assistance, by management assistance, and other ways.
- (2) If the provider obtains items of services, facilities, or supplies from an organization, even though it is a separate legal entity, and the organization is owned or controlled by the owner(s) of the provider, in effect the items are obtained from itself. An example would be a corporation building a hospital or a nursing home and then leasing it to another corporation controlled by the owner. Therefore, reimbursable cost should include the costs for these items at the cost to the supplying organization. However, if the price in the open market for comparable services, facilities, or supplies is lower than the cost to the supplier, the allowable cost to the provider may not exceed the market price.

#### (d) Exception.

- (1) An exception is provided to this general principle if the provider demonstrates by convincing evidence to the satisfaction of the fiscal intermediary (or, if the provider has not nominated a fiscal intermediary, CMS), that--
- (i) The supplying organization is a **bona fide separate organization**;

- (ii) A <u>substantial part of its business activity</u> of the type carried on with the provider <u>is transacted with others than the provider</u> and organizations related to the supplier by common ownership or control <u>and there is an open</u>, <u>competitive market</u> for the type of services, facilities, or supplies <u>furnished by the organization</u>;
- (iii) The services, facilities, or supplies are those that <u>commonly are obtained</u> by institutions such as the provider <u>from other organizations</u> and <u>are not a basic element of patient care ordinarily furnished directly to patients</u> by such institutions; <u>and</u>
- (iv) The charge to the provider is <u>in line with the charge</u> for such services, facilities, or supplies <u>in the open market and no more than the charge made under comparable circumstances to others by the organization</u> for such services, facilities, or supplies.
- (2) In such cases, the charge by the supplier to the provider for such services, facilities, or supplies is allowable as cost.

(emphasis added)

Go. The Medicare program is codified in Title XVIII of the Social Security Act, 42 U.S.C. § 1395, et seq., which established a federally-funded health insurance program for the elderly and disabled. The United States Department of Health and Human Services ("HHS") runs Medicare. HHS has delegated the operation of Medicare to CMS, its component entity. CMS contracts with experienced insurance carriers in various regions of the country to act for HHS in reviewing, processing, and paying Medicare claims. These insurance carriers are called Fiscal Intermediaries ("FI") or Medicare Administrative Contractors ("MACs"). Thus, the FI or MAC acts as the agent of HHS for purposes of auditing claims for reimbursement and administering payments, and include First Coast Options (Jurisdiction 9 – Florida, Puerto Rico and U.S. Virgin Islands region), Cahaba Government Services (Jurisdiction 10 – Alabama, Georgia, and Tennessee region), and Palmetto GBA (Jurisdiction 11 – North Carolina, South Carolina, Virginia and West Virginia region).

61. Upon information and belief, the State of Georgia, through the Georgia Department of Community Health and as part of its Medicaid program or plan, has adopted Medicare's laws, regulations, and rules regarding costs to related organizations, including, but not limited to, the provisions of 42 C.F.R. § 413.17, entitled "Cost To Related Organizations, and the provisions of Chapters 10 and 21 of CMS Provider Reimbursement Manual, Pub. 15-1, set forth herein. Georgia's Medicaid State Plan, at Attachment 4.19-D, page 3, Section C, entitled "Allowability of Costs," provides in part that "The Department uses the Centers for Medicare and Medicaid Services Manual (CMS 15-1) Medicare principles, as a guide to determine allowable and non-allowable costs. However, in situations where warranted, the Department has developed policy regarding cost allowability outsold (sic) of CMS 15-1..." and further provides, at Sub-section 1.c., that "Costs applicable to services, facilities and supplies furnished to a provider by common ownership or control shall not exceed the lower of the cost to the related organization or the price of comparable services, facilities, or supplies purchased elsewhere[.] Providers are required to identify such related organization and costs on the State's uniform cost report." (emphasis added) A party that is "related to the provider" means that the provider, to a significant extent, is associated or affiliated with or has control of, or is controlled by the organization furnishing the services, facilities, supplies, etc... Thus, costs applicable to services, facilities and supplies furnished to the provider by organizations related to the provider by common ownership or control are includable in the allowable cost of the provider at the lower of the cost to the related party or the price of comparable services, facilities, or supplies that could be purchased elsewhere. Where the cost of a related party is included in allowable costs, supporting financial statements of the related party cost for the cost report period must be furnished.

- Upon information and belief, the State of North Carolina, as part of its Medicaid program or plan, has adopted Medicare's laws, regulations, and rules regarding costs to related organizations, including, but not limited to, the provisions of 42 C.F.R. § 413.17, entitled "Cost To Related Organizations, and the provisions of Chapters 10 and 21 of CMS Provider Reimbursement Manual, Pub. 15-1, set forth herein. North Carolina regulations, at 10A NCAC 22G.0104(c), provide in part that SNF costs "must be reported in the cost report in accordance with the following rules ... (2) Costs must be reported in conformance with the Medicare Provider Reimbursement Manual, HCFA 15," and further provide at (d)(16) that "A nursing facility shall demonstrate by convincing evidence . . . that the criteria in the Medicare Provider Reimbursement Manual, Section 1010, have been met in order to be recognized as an exception to the related organization principle."
- Open information and belief, the State of South Carolina, as part of its Medicaid program or plan, has adopted Medicare's laws, regulations, and rules regarding costs to related organizations, including, but not limited to, the provisions of 42 C.F.R. § 413.17, entitled "Cost To Related Organizations, and the provisions of Chapters 10 and 21 of CMS Provider Reimbursement Manual, Pub. 15-1, set forth herein. South Carolina's Medicaid State Plan, at Attachment 4.19-B, Section II, provides in part that SNF "Cost report requirements under the prospective payment system and retrospective reimbursement system will conform to Medicare cost reporting principles and use as their basis the Medicare Cost Report From CMS-2552."

  South Carolina's Medicaid State Plan, at Attachment 4.19-D, Section K.I.(1) further provides in part that the South Carolina Department of Health and Human Services ("SCDHHS") "Adjusts each nursing facility's 'desk audited' allowable costs (net of capital expenses) to conform to the requirements of HIM-15 (i.e., the Provider Reimbursement Manual)."

- 64. Upon information and belief, the State of Florida, as part of its Medicaid program or plan, has adopted Medicare's laws, regulations, and rules regarding costs to related organizations, including, but not limited to, the provisions of 42 C.F.R. § 413.17, entitled "Cost To Related Organizations, and the provisions of Chapters 10 and 21 of CMS Provider Reimbursement Manual, Pub. 15-1, set forth herein. Florida's Agency for Health Care Administration, in its publication entitled "Instructions to Cost Report for Nursing Homes Participating in the Florida Medicaid Program," provides in part that "This worksheet provides the computation for any needed adjustments to cost, which are applicable to services, facilities and supplies furnished to the provider by organizations related to the provider by common ownership or control. In addition, certain information concerning the related organizations with which the provider has transacted business shall be shown. See CMS Pub. 15-1, Chapter 10." See page 14, at http://ahca.myflorida.com/Medicaid/cost reim/ecr/Cost Report Instructions Aug 2014.pdf. The aforesaid instructions further provide that "Costs applicable to all services, facilities and supplies furnished to the provider by organizations related to the provider by common ownership or control are includable in the allowable cost of the provider at the cost of the related organization; however, such cost must not exceed the amount a prudent and cost conscious buyer would pay for comparable services, facilities, or supplies that could be purchased elsewhere." - Defendants Pruitt, Nancy Pruitt, Pruitthealth, UHSI, NP Trust, JP Trust and LP Trust were the owners and operators, directly and/or indirectly through related and affiliated entities, persons and/or trusts, of the Defendant Nursing Homes. The Defendant Nursing Homes operated, and continue to operate, under the direct and/or indirect supervision, management, direction and

substantial control of these Defendants and their affiliated and related person, entities and trusts. Defendants Pruitt, Nancy Pruitt, Pruitthealth, UHSI, NP Trust, JP Trust and LP Trust substantially controlled the Defendant Nursing Homes' finances, and thus substantially controlled the funds available to operate the Defendant Nursing Homes and to provide the required bundle of essential services, supplies, items, goods and facilities for the care of the residents of the Defendant Nursing Homes. In connection with their substantial control of the Defendant Nursing Homes' finances, Defendants Pruitt, Nancy Pruitt, Pruitthealth, UHSI, NP Trust, JP Trust and LP Trust strictly directed the Defendant Nursing Homes' use and receipt of funds and purchases of goods, services, items, facilities and supplies from vendors/suppliers, including the Related Companies, at all times relevant to this action, at the sole discretion of Defendants Pruitt, Nancy Pruitt, Pruitthealth, NP Trust, JP Trust and LP Trust.

- 66. Defendants Pruitt, Nancy Pruitt, Pruitthealth, UHSI, NP Trust, JP Trust and LP Trust caused Defendant Pruitthealth, the Defendant Nursing Homes, and Defendants John Does 1-100 to enter into Medicaid and Medicare agreements, to execute other documents necessary for the Defendant Nursing Homes to participate in those programs, and to take such other steps and to execute such other documents as were necessary for the Defendant Nursing Homes to conduct business, make claims for payment, and receive such payments as Medicaid and Medicare providers.
- 67. Upon information and belief, Defendants Pruitt, Nancy Pruitt, Pruitthealth, UHSI, NP Trust, JP Trust and LP Trust and/or Defendant Nursing Homes and Related Companies, either directly or by and through their administrative personnel, including those denominated herein as Defendants John Doe 1-100, signed or caused to be signed Medicaid and Medicare provider agreements on behalf of the Defendant Nursing Homes and Related Companies. Upon

information and belief, the said Medicare/Medicaid provider agreements contained the following certification, representation and/or agreement, or language substantially similar: "I understand that any omission, misrepresentation, or falsification of any information contained in this application or contained in any communications supplying information to Medicare/Medicaid to complete or verify this application may be punishable by criminal, civil, or other administrative actions."

- 68. Upon information and belief, the said Medicare/Medicaid provider agreements also contained the following certification, representation and/or agreement, or language substantially similar: "I will not knowingly present, or cause to be presented, a fraudulent claim for payment by Medicare/Medicaid and will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity."
- 69. Upon information and belief, in addition to the provider agreements, the Defendant Nursing Homes and Related Companies also executed an Electronic Data Interchange Agreement ("EDI") enrollment form in order to bill Medicare/Medicaid electronically.
- 70. Upon information and belief, by executing the EDI enrollment form, each of the Defendant Nursing Homes and Related Companies certified, represented and/or agreed to "be responsible for all Medicare/Medicaid claims submitted to CMS by itself, its employees, or its agents" and to "submit claims that are accurate, complete, and truthful," or language substantially similar.
- 71. Upon information and belief, by executing the EDI enrollment form the Defendant Nursing Homes and Related Companies also certified, represented and agreed "that all claims will be paid from Federal funds, that the submission of such claims is a claim for payment under the Medicare/Medicaid program, and that anyone who misrepresents or falsifies

or causes to be misrepresented or falsified any record or other information relating to that claim as required by this agreement may, upon conviction be subject to a fine and/or imprisonment under applicable Federal law," or language substantially similar.

- 72. Upon information and belief, the Defendant Nursing Homes submitted claims for payment to Medicare/Medicaid electronically, or, upon information and belief, on paper forms known as a UB-92, HCFA-1450, UB-04, and/or CMS-1450, or similar such forms, which contain the following certification, representation and/or agreement, or language substantially similar: "this claim, to the best of my knowledge, is correct and complete...." Upon information and belief, the Defendant Related Companies submitted claims for payment to Medicare/Medicaid electronically, or, upon information and belief, on paper forms known as a CMS-1500, or similar such forms, which contain the following certification, representation and/or agreement, or language substantially similar: "this claim, to the best of my knowledge, is correct and complete...."
- To the provision and belief, the Defendant Nursing Homes, Pruitthealth and Hospice were required to submit an annual cost report to CMS, in which, upon information and belief, the Defendants John Doe 1-100, and/or authorized representatives of Pruitthealth and Hospice, certified, represented and agreed as follows, or language substantially similar: "I am familiar with the laws and regulations regarding the provision of healthcare services and that the services identified in this cost report were provided in compliance which such laws and regulations." The said certification, representation and agreement also acknowledged that "misrepresentation or falsification of any information contained in the cost report may be punishable by criminal, civil, or administrative action, fine, and/or imprisonment under Federal law," or language substantially similar. The John Doe Defendants each signed the respective

nursing home's cost reports on behalf of Defendant Nursing Homes, or otherwise caused such cost reports to be signed annually at all times relevant herein.

- 74. Upon information and belief, the Relator signed, or caused to be signed by an authorized representative, such a cost report for the Pruitthealth Bamberg Skilled Nursing Facility while she was employed at that facility.
- 75. Upon information and belief, in order to participate in and receive payments under the Medicaid and Medicare programs, the Defendant Nursing Homes, Pruitthealth and Related Companies executed a Health Insurance Benefit Agreement form CMS-1561 ("CMS-1561"). 42 U.S.C. § 1395(c). By doing so, the Defendant Nursing Homes, Pruitthealth and Related Companies expressly certified, represented and agreed to conform with applicable code of Federal regulations within Title 42, including, but not limited to, the costs to related organizations regulation set forth at 42 C.F.R. § 413.17 that implements the Nursing Home Reform Act, 42 U.S.C. § 1395i-3, 1396r, *et seq.*, the Anti-Kickback Statute, and the SIE rules and regulations.
- 76. Upon information and belief, Defendants Pruitt, Nancy Pruitt, Pruitthealth, UHSI, NP Trust, JP Trust and LP Trust caused the Defendant Nursing Homes, the Related Companies and the John Doe Defendants to execute the federal health insurance benefit agreement forms on behalf of the Defendant Nursing Homes and Related Companies. Upon information and belief, under the said health insurance benefit agreements, each of the Defendant Nursing Homes and Related Companies expressly certified, represented and/or agreed that the provider would comply with Federal regulations in order to receive payment:

In order to receive payment under Title XVIII of the Social Security Act [42 U.S.C. § 1395cc] [name of the nursing home inserted here] as the provider of services agrees to conform to the provisions of Section [SIC] 1866 of the Security Social Act and applicable

provisions in 42 CFR [which includes the regulations on care provided in nursing homes].

- 77. As certified Medicaid providers, the Defendant Nursing Homes were entitled to make claims for reimbursement of their costs of operation in providing necessary services.

  Providers may receive payments on such claims based upon a pre-determined percentage of costs associated with the provider's costs. Claims may be based upon a daily rate of cost per patient or an hourly rate of cost per patient. New providers submit estimates of future costs, and thereafter the cost report filed by the providers is used to estimate future costs. Medicaid reimbursement payments are made on a continuing basis throughout the year based upon claims filed by the provider and are called interim payments. Annually, the provider must file a provider cost report with the FI or MAC so as to permit the intermediary or MAC to audit the claim costs and to determine if the costs claimed are proper. Once adjustments are made, the FI or MAC determines whether the provider has been overpaid or underpaid for the costs allowable for the year.
- 78. The Medicare/Medicaid reimbursement programs are structured around the concept of allowable "reasonable costs." These are costs actually incurred by the provider, and exclude any costs found to be unnecessary or unreasonable in the efficient delivery of needed health services per 42 U.S.C. § 1395x(v)(1)(A).
- 79. Medicare/Medicaid rules and regulations require providers to minimize costs and not pay any more than what a "prudent buyer" would pay for goods, items, supplies or services.

  CMS PRM, Pub. 15-1, Chapter 21, Cost Principles, at § 2103, entitled "Prudent Buyer" provides in part as follows:
  - A. General.--The <u>prudent and cost-conscious buyer</u> not only <u>refuses to pay more</u> than the going price for an item or service, he/she also seeks to economize by minimizing cost. This is especially so when the buyer is an institution or organization

which makes bulk purchases and can, therefore, often gain discounts because of the size of its purchases. In addition, bulk purchase of items or services often gives the buyer leverage in bargaining with suppliers for other items or services. Another way to minimize cost is to obtain free replacements or reduced charges under warranties for medical devices. Any alert and cost-conscious buyer seeks such advantages, and it is expected that Medicare providers of services will also seek them.

(emphasis added)

- 80. As set forth herein, Defendants have engaged in a pattern of submitting, or causing to be submitted, SNF costs from "related party" suppliers in making claims to the federal government, to wit, Medicaid, for reimbursements of costs of operation in providing SNF services. As described herein, such conduct is wholly unlawful because such costs of the Related Companies/related party suppliers have been, and continue to be, inflated and in excess of the fair market value of such services, supplies, items, goods and facilities available on the open market.
- 81. Pursuant to 42 C.F.R. § 413.17, costs applicable to services, facilities, and supplies furnished by supplier organizations related to the provider by common ownership or control are includable in the allowable costs of the provider at the lesser of the actual cost to the related supplier organization or the price of comparable services, facilities or supplies that could be purchased elsewhere in the open market.
- 82. Under 42 C.F.R. § 413.17(b)(1), the term "related to the provider" means that the provider to a significant extent is associated with or affiliated with or has control of or is controlled by the organization furnishing the services, facilities, or supplies.
- 83. Under 42 C.F.R. § 413.17(b)(2), common ownership exists if an individual or individuals possess significant ownership or equity in the provider and the organization serving the provider.

- 84. Under 42 C.F.R. § 413.17(b)(3), control exists if an individual or organization has the direct or indirect power to influence or direct the actions or policies of an organization or institution.
- 85. An exception to this general limitation on Medicaid reimbursement for services, supplies, goods, items or facilities procured from a related company supplier (i.e., the Related Companies) exists if the provider (i.e., the Defendant Nursing Homes) can demonstrate by convincing evidence to the satisfaction of the fiscal intermediary or MAC that all of the following exist: (1) the supplying organization is a bona fide separate organization; (2) a substantial part of its business activity is transacted with others than the provider and organizations related to the supplier by common ownership or control and there is an open competitive market for the type of services, facilities, or supplies furnished by the organization; (3) the services, facilities, or supplies are those that are commonly obtained by institutions such as the provider from other organizations and are not a basic element of patient care ordinarily furnished directly to patients by such institutions; and (4) the charge to the provider is in line with the charge of such services, facilities, or supplies in the open market and no more than the charge made under comparable circumstances to others by the organization such services, facilities, or supplies. 42 C.F.R. § 413.17(d) (emphasis added).
- 86. Defendants Pruitt, Pruitthealth, UHSI, Nancy Pruitt, NP Trust, JP Trust, LP Trust and the Defendant Nursing Homes routinely disclosed the foregoing Related Companies as related party entities in cost reports provided to Medicare and Medicaid. For example, in the cost report for Defendant Nursing Home Pruitthealth Bethany, LLC, regarding the Bethany Nursing Center of Millen, for the period from 11/1/2010 to 6/30/2011, Pruitthealth disclosed the following related parties therein: Pruitt Corporation, United Collections, United Clinical, United

Pharmacy, United Medical, United Rehab and Unichoice Environmental Service. An excerpt from the said cost report which identifies the Pruitthealth Related Companies is attached hereto and incorporated herein by reference as <a href="Exhibit 7">Exhibit 7</a>. For another example, in the cost report for Defendant Nursing Home Pruitthealth – Augusta, LLC f/k/a Unihealth Post-Acute Care - Augusta, LLC, regarding the nursing home d/b/a Unihealth Post-Acute Care - Augusta, for the period from 7/1/2009 to 6/30/2010, Pruitthealth disclosed the following related parties therein: Pruitt Corporation, Augusta Healthcare, United Collections, United Clinical, United Pharmacy, United Medical, United Rehab and Unichoice Environmental Service. An excerpt from the said cost report which identifies the Pruitthealth Related Companies is attached hereto and incorporated herein by reference as <a href="Exhibit 8">Exhibit 8</a>.

#### **DEFENDANTS' SCHEME TO DEFRAUD -- RELATED PARTY TRANSACTIONS**

Trust have required, at all times relevant to this action, and upon information and belief, continue to require, Defendant Nursing Homes' administrators and management personnel to immediately and continuously contract with companies owned and/or controlled by Defendants Pruitt, Pruitthealth, UHSI, Nancy Pruitt, NP Trust, JP Trust, and/or LP Trust, including, but not limited to, those Related Companies set forth above, for the services, goods, items, facilities and supplies provided by said Related Companies. The Defendant Nursing Homes' administrators and management personnel are strictly mandated by Defendants Pruitt, Pruitthealth, UHSI, Nancy Pruitt, NP Trust, JP Trust, and/or LP Trust to only purchase necessary goods, items, facilities, supplies and services from these Related Companies over which Defendants Pruitt, Pruitthealth, UHSI, Nancy Pruitt, NP Trust, JP Trust, and/or LP Trust have direct and/or indirect substantial control, influence and ownership without consideration for cost, quality, experience,

convenience, immediate need, history, mark-up or profit, or availability from other market sources. The Defendant Nursing Homes have been, and, upon information and belief, continue to be, given no chance for arm's length-bargaining for goods, items, facilities, supplies and services necessary to the daily operation of the Defendant Nursing Homes which are supplied by the Pruitthealth conglomerate of related vendors/suppliers, to wit, the Related Companies and other ancillary providers (such as the Bernie Ross Ancillary Companies, defined below) specifically approved by Pruitt/Pruitthealth, to the Defendant Nursing Homes.

- Trust, JP Trust, and LP Trust, by and through Defendant Pruitthealth, utilize a DSSI computer system located at the home office in Norcross, Georgia. This computer system has been, and, upon information and belief, continues to be managed and operated primarily by Jody Pelot, an employee of Defendants Pruitt and/or Pruitthealth. Upon information and belief, Defendant Nursing Homes' administrators are and were required to make a requisition for any and all goods, supplies and services through this computer system. Defendant Pruitthealth and/or and affiliate then sends the request to its ancillary Related Companies and/or Pruitt/Pruitthealth-approved vendors. This process artificially and fraudulently inflates the costs of such goods, items, supplies, facilities and services to the Defendant Nursing Homes. While she was the Administrator thereof, Relator was forced to comply with this process and the mandated related-party purchases for the Defendant Pruitthealth Bamberg, LLC f/k/a Unihealth Post-Acute Care of Bamberg, LLC (the "Pruitt-Bamberg SNF").
- 89. In submitting cost reports to Medicaid and the states of Florida, Georgia, North Carolina and/or South Carolina for reimbursement by the federal government and respective state government/Medicaid programs, Defendants, in particular the Defendant Nursing Homes,

have demonstrated a total disregard for 42 C.F.R. § 413.17, CMS PRM, Pub. 15-1, Chapters 10 and 21, and other applicable federal and state laws, rules and regulations referenced herein by including as reimbursable costs the profits made by Defendants' Related Companies and/or including as reimbursable costs of the Related Companies that greatly exceed the fair market value price of comparable goods, supplies, items, services and facilities that could have been acquired from companies outside of the Pruitt/Pruitthealth empire through an open, competitive bidding process.

- 90. The Relator has personal knowledge that the Related Companies' charges to the Pruitt-Bamberg SNF and the Defendant Nursing Homes were inflated with the Related Companies' profits. The Relator has personal knowledge that the Related Companies' charges to the Pruitt-Bamberg SNF for goods, facilities, items, supplies and services were at costs that greatly exceeded the fair market value price of comparable goods, facilities, items, supplies and services that could have been acquired from companies outside of the Pruitt/Pruitthealth empire through an open, competitive bidding process, and, upon information and belief, the same was true for the Related Companies' charges to all of the other Defendant Nursing Homes as well.
- 91. The Relator was repeatedly told by Pruitthealth management after the Pruitt/Pruitthealth acquisition of the Bamberg nursing facility that the Pruitt-Bamberg SNF and all of the other Defendant Nursing Homes had to absorb the Pruitt/Pruitthealth Related Companies' charges as set forth in cost reports because each such Related Company was a separate profit center in the Pruitt/Pruitthealth chain of companies.
- 92. Furthermore, upon information and belief, Defendants Pruitt, Pruitthealth, UHSI, Nancy Pruitt, NP Trust, JP Trust, LP Trust and the Defendant Nursing Homes do not meet, have not met, and cannot meet all of the required elements of the exception provided in 42 C.F.R. §

- 413.17(d) and/or CMS PRM, Pub. 15-1, Chapter 10, Section 1010, for one or more or all of the reasons set forth below.
- 93. The Pruitt/Pruitthealth supplier Related Companies are not *bona fide* organizations separate from Defendants Pruitt, Pruitthealth and the Defendant Nursing Homes.
- 94. The Pruitt/Pruitthealth supplier Related Companies do a substantial part or most of their business with the Defendant Nursing Homes.
- 95. The Pruitt/Pruitthealth supplier Related Companies have a contractual monopoly on the Defendant Nursing Homes' business for the services, goods, items, facilities and supplies sold to the Defendant Nursing Homes by the Related Companies.
- 96. There is not, and has not been, an open, competitive market for the type of services, goods, items, facilities and supplies furnished by the Pruitt/Pruitthealth supplier Related Companies to the Defendant Nursing Homes.
- 97. Many, or a substantial part, of the services, goods, items, facilities and supplies purchased from the Pruitt/Pruitthealth supplier Related Companies by the Defendant Nursing Homes are not commonly obtained by nursing homes providers from supplier organizations.
- 98. Many, or a substantial part, of the services, goods, items, facilities and supplies purchased from the Pruitt/Pruitthealth supplier Related Companies by the Defendant Nursing Homes are basic elements of patient care ordinarily furnished directly to patients by nursing homes.
- 99. The Pruitt/Pruitthealth supplier Related Companies' cost charges to the Defendant Nursing Homes for the purchase of these services, goods, items, facilities and supplies greatly exceeds the price costs of comparable services, goods, items, facilities and supplies available on the open market.

- 100. The Pruitt/Pruitthealth supplier Related Companies' cost charges to the Defendant Nursing Homes for the purchase of these services, goods, items, facilities and supplies are more than the cost charges made under comparable circumstances to others by the suppler organizations for such services, goods, items, facilities and supplies.
- Nursing Homes for the purchase of these services, goods, items, facilities and supplies are inflated with unnecessary cost items and include more than the costs to the Pruitt/Pruitthealth Related Companies, to wit, upon information and belief, profit is included in the Pruitt/Pruitthealth supplier Related Companies' charges to the Defendant Nursing Homes for such services, goods, items, facilities and supplies.
- Defendants Pruitt, Pruitthealth, UHSI, Nancy Pruitt, NP Trust, JP Trust, LP Trust, Defendant Nursing Homes and the Related Companies, knowingly and intentionally submitted and/or presented, and/or caused to be submitted and/or presented, false and/or fraudulently inflated claims and false and/or fraudulent representations and certifications, both express and implied, material to such claims to the Florida, Georgia, North Carolina and/or South Carolina Medicaid programs in violation of applicable federal and state laws, rules and regulations referenced herein.
- 103. Defendants Pruitt, Pruitthealth, UHSI, Nancy Pruitt, NP Trust, JP Trust, LP Trust, the Defendant Nursing Homes and the Related Companies, knowingly and intentionally or with reckless disregard or deliberate indifference, submitted and/or presented, or caused to be submitted and/or presented, false and/or fraudulently inflated claims, and false and/or fraudulent representations and certifications, both express and implied, material to such claims to the Medicaid programs in violation of the False Claims Act, 31 U.S.C. § 3729, et seq., the false

claims acts of Florida, Georgia and/or North Carolina, and/or the false claims statute/Medicaid Fraud Statute of South Carolina, S.C. Code Sections 38-55-170 and 43-7-60.

- disregard or deliberate indifference presented false and fraudulent claims to the federal government, to wit, Medicaid, in the form of annual cost reports and interim claims for payment because actual reported costs of the Pruitt/Pruitthealth supplier Related Companies exceeded the allowable costs of the Defendant Nursing Homes in that the Pruitt/Pruitthealth supplier Related Companies' costs are and were greater than the fair market value charges for the same supplies, goods, items, facilities and services that are and were available on the open market and included and continue to include inflated and unnecessary charges and profit markups in excess of the Pruitt/Pruitthealth Related Company suppliers' actual costs.
- that Defendants submitted inflated and unnecessary charges and profit markups in excess of the Pruitt/Pruitthealth Related Company suppliers' actual costs and/or in excess of the fair market value of comparable such services, supplies, goods, items and facilities in their annual cost reports and interim claims for payment, Defendants knowingly made, or caused to be made, and received and unlawfully retained payments for, false and fraudulent claims for the bundle of nursing home services that the Defendant Nursing Homes were required, as Medicaid providers, to provide to their federal health program patient beneficiaries.
- 106. Defendants made, or caused to be made, false and fraudulent statements and records material to their false and fraudulent claims to the Medicaid programs and knowingly and intentionally received and unlawfully retained Medicaid funds to which they were not entitled, and payments for these false and fraudulent claims would not have been made by the

federal government nor the States of Florida, Georgia, North Carolina and/or South Carolina had the truth of false nature of the claims been known.

- 107. Due to Defendants' materially false and fraudulent claims, misrepresentations, and material omissions, the Medicaid programs paid or reimbursed Defendants for the unlawful, profit-inflated, unnecessary and excessive costs, including profit markups, charged by the Pruitt/Pruitthealth supplier Related Companies to the Defendant Nursing Homes.
- The United States and the States of Florida, Georgia, North Carolina and/or South Carolina were damaged and Defendants were unjustly enriched by the payments sought and received from the Medicaid programs for the unlawful, inflated, unnecessary and excessive costs, including profit markups, charged by the Pruitt/Pruitthealth supplier Related Companies to the Defendant Nursing Homes, and are entitled to recover their damages, under their respective false claims acts, and in equity, fairness and good conscience, Defendants should be required to account for and disgorge such unjustly obtained amounts, and should be enjoined from obtaining future payments from the federal government and the aforesaid state governments based upon the false claims and fraudulent conduct set forth herein.

# RELATOR'S KNOWLEDGE OF THE PRUITT SCHEME AND CONSPIRACY TO DEFRAUD BY FRAUDULENTLY INFLATING AND CLAIMING RELATED PARTY COSTS AND EXPENSES

- Administrator of Bamberg County Nursing Home in Bamberg, South Carolina, which, upon information and belief, was acquired by Defendants Pruitthealth, UHSI, Pruitt, Nancy Pruitt, NP Trust, JP Trust and/or LP Trust from Bamberg County on or about August 3, 2009.
- 110. Upon information and belief, the Defendants Pruitthealth, UHSI, Pruitt, Nancy Pruitt, NP Trust, JP Trust and/or LP Trust originally acquired the Bamberg County Nursing

Home under the name Unihealth Post-Acute Care of Bamberg, LLC (the "UPAC Bamberg SNF"), and it is located at 509 North Street, Bamberg, South Carolina. Upon information and belief, the foregoing Pruitt-related Defendants have renamed the said UPAC Bamberg SNF limited liability company to Pruitthealth – Bamberg, LLC ("Pruitt-Bamberg SNF").

- 111. Upon information and belief, the Pruitt-Bamberg SNF was and is an 88 bed nursing home facility, and its Medicare Provider Number is 42-5104, its Medicaid Provider Number is MMIS 1007, and its National Provider Identification Number is 1104063118.
- 112. Upon information and belief, Ms. Debbie Metts (f/k/a Rutland) became the successor to Mr. Luther Reeves as administrator of the Pruitt-Bamberg SNF.
- Defendants, Relator was the Administrator of the Bamberg County SNF and in charge of ordering goods, items, supplies and services for the Bamberg County Nursing Home at market rates from vendors unrelated to the Pruitt/Pruitthealth organization. As a county-owned skilled nursing unit of the Bamberg Hospital, the purchase of goods or services over \$500 in costs required that the Relator obtain at least three (3) open-market bids or quotes.
- 114. Almost immediately after the change of ownership on August 3, 2009 (sometimes referenced as the "CHOW"), Relator was instructed by Pruitt/Pruitthealth management that she could no longer seek market-competitive bids from non-Pruitt approved vendors for goods, items, supplies and services which the Pruitt-Bamberg SNF needed to operate.
- 115. Instead, Relator was instructed by Pruitt/Pruitthealth management that she could only order goods, items, supplies and services for the Pruitt-Bamberg SNF in accordance with Defendant Pruitt's and Pruitthealth's mandated purchasing protocols, including the Contracting Department's Contracting Manual which set forth an approved partial corporate vendor list for

Pruitt/Pruitthealth-owned and/or controlled SNFs, which list set forth many exclusive vendor suppliers which were Pruitt/Pruitthealth owned and/or substantially controlled vendors. This Pruitt/Pruitthealth-mandated Contracting Manual is attached hereto and incorporated herein by reference as **Exhibit 9**.

- 116. The Pruitt/Pruitthealth employees who were in charge of administering the Contracting Manual and its policies were as follows: Marty Meighan, Vice President of Contracting; Karen Wilson, Contract Analyst; Jody Pelot, Director of Purchasing; and, Tracy Harmon, Administrative Assistant. See Id. at 2.
- 117. The signatures of Vice President Marty Meighan and Defendant Pruitt, Chairman and CEO of Pruitthealth, were required in order to enter into any vendor or supplier contracts with the Defendant Nursing Homes. See Id. at 18.
- 118. The Pruitt/Pruitthealth Contracting Manual listed many of the approved vendor suppliers for a variety of goods, items, supplies and services, and many of the so-called "approved" vendors were actually Pruitt/Pruitthealth-owned, controlled or affiliated vendors, including, but not limited to, the following Related Companies: (a) United Medical for paint, maintenance supplies, bed rentals, specialty mattresses, air conditioning units, kitchen equipment, textiles, office supplies, and janitorial supplies, etc.; (b) United Pharmacy Services for pharmacy supplies and drugs; (c) United Clinical Services; (d) United Hospice for hospice services; (e) Unihealth SOURCE; (f) United Home Care for home health services; (g) United Rehab for rehabilitation services; (h) Healthcare Centers; and, (i) United Veteran Services. See Id. at 4-7, 10 and 21.
- 119. Soon after the Pruitt-Bamberg SNF acquisition in 2009, the Relator attended a meeting at Pruitt/Pruitthealth Headquarters where she learned that the staff of all Defendant

Nursing Homes were required and expected, by Pruitthealth and Pruitt, his managers and his Related Companies/affiliated entities, persons and trusts, to abide by the Pruitt/Pruitthealth Contracting Manual and similar Pruitt/Pruitthealth-mandated vendor/supplier contracting policies and protocols when ordering vendor goods, items, supplies, facilities and services. At this meeting, Relator confirmed the scope and extent of the related party transactions involving all Defendant Nursing Homes and the Pruitt/Pruitthealth-owned, controlled and/or affiliated organizations, to wit, the aforesaid Related Companies, as well as certain Pruitt/Pruitthealth-approved vendors, set forth in more detail below.

- Pruitt/Pruitthealth management after the CHOW, included, but are not limited to: (a) Sanders Supply (hardware and general supplies); (b) One Source Chemicals (housekeeping supplies); (c) Wright Brother's Painting (painting and maintenance); (d) Hoyt Jameson Electric (electrical maintenance services) (e) the local landscaping company (landscaping and yard maintenance); (f) the local generator company (maintenance and annual inspections); and, (g) the local alarm system company (alarm system maintenance).
- Bamberg SNF vendors as of August-September of 2009 which is attached hereto and incorporated herein by reference as **Exhibit 10**. The "Notes" column included comments by Pruitt/Pruitthealth management, believed to be either Jody Pelot, Tracy Harmon or Marty Meighan, and demonstrate the strict conformity with the Pruitt/Pruitthealth Contracting Manual which was expected, controlled and implemented by the Pruitt/Pruitthealth management.

  Pruitt/Pruitthealth's Contracting Manual and contracting protocols also extended to the Capital Expenditure Requisition ("CER") policy for any capital purchase over \$500 for any

Pruitt/Pruitthealth-owned or controlled SNF facility. <u>Exhibit 11</u>, an 8/13/2009 email with two attachments, showing some of the procurement requirements, is attached hereto and incorporated herein by reference.

- 122. Prior to the CHOW, as Administrator of the Bamberg SNF facility, Relator was required to obtain three (3) competitive bids prior to purchasing goods, items, supplies or services in excess of \$500.
- 123. After the CHOW, because the Relator was no longer allowed to obtain competitive bids from vendors for services, items, supplies or goods for the Pruitt-Bamberg SNF facility, and Relator observed the SNF facility's expenses greatly and unnecessarily increase. The facility's purchases came to be made without consideration for costs, quality, experience, convenience, immediate need, fair market value, or history of the ancillary vendors. The Pruitt/Pruitthealth mandate was to sole source to particular vendors, including Pruitt/Pruitthealth Related Companies, for the supplies, services, items, goods and facilities needed by the Defendant Nursing Homes.
- 124. Any contracts with pre-CHOW vendors were just summarily and unilaterally terminated by Pruitt and his Pruitthealth management team.
- 125. Room painting services are an example of the over-charging that occurred after the CHOW. Before the CHOW, Wright Brother's Painting usually charged about \$750 to repaint each of the Pruitt-Bamberg SNF patient rooms. After the CHOW, Pruitt/Pruitthealth's designated approved contractor, Mashburn Construction Company, charged \$2,400 to repaint a patient room, or more than three times the prior cost of the non-Pruitt/Pruitthealth approved contractor.

- 126. Most importantly, after the CHOW, the Pruitt-Bamberg SNF's costs for many patient-related services increased dramatically because they were being provided by mandated Pruitt/Pruitthealth affiliated, controlled and/or related entity contractors, or certain mandated Pruitt/Pruitthealth-approved suppliers/contractors, without competitive bids.
- 127. The mandated Pruitt/Pruitthealth affiliated, controlled or related entity contractors, to wit, the Related Companies, as well as certain Pruitt/Pruitthealth-approved suppliers/contractors, were charging the Pruitt-Bamberg SNF excessive costs which were substantially above fair market value for many patient-related services.
- 128. Prior to the CHOW, the Bamberg SNF facility had a monthly contract with Carolina Dietitian Consultants which provided its dietary consulting services for \$500 per day, and typically worked one day per week.
- 129. After the CHOW, as administrator of the Pruitt-Bamberg SNF, Relator was forced to accept the assignment of a Pruitt/Pruitthealth "consultant" from United Clinical in each separate facility department such as business office consultant, nursing consultant, maintenance consultant, dietary consultant, rehabilitation consultant, education consultant, marketing consultant, etc.... Many of these type consultants were not used at the Pruitt-Bamberg SNF before the CHOW, nor were they necessary after the CHOW.
- 130. After the CHOW, typically two or more Pruitt-owned, controlled and/or affiliated entity Related Company consultants would visit the Pruitt-Bamberg SNF every day and the facility would be charged \$750 per day for each consultant.
- 131. After the CHOW, Relator was forced to engage Pruitt/Pruitthealth dietary consultants for the Pruitt-Bamberg SNF. The Pruitt/Pruitthealth dietary consultants charged

<u>\$750 per day</u> for each consultant, and the Pruitt/Pruitthealth dietary consultants typically worked two or more days per week, significantly increasing the expense to the Pruitt-Bamberg SNF.

- 132. These additional, unnecessary, and above-fair market value costs and expenses for consultants included those from Pruitt/Pruitthealth-owned, controlled and/or affiliated entity Related Companies such as United Medical, United Clinical, Hospice, United Pharmacy and United Rehab.
- 133. Relator was informed by Pruitt/Pruitthealth management that these additional, unnecessary, and above-fair market value costs and expenses for Related Company consultants were part of a system wide practice and protocol for all Defendant Nursing Homes mandated by Pruitt/Pruitthealth management. The Defendant Nursing Homes submitted interim claims and annual cost reports as claims for payment and reimbursement from the federal government and the state governments of Florida, Georgia, North Carolina and/or South Carolina which included such Related Companies' inflated costs and expenses, all of which resulted in materially false and fraudulent claims from all of the Defendant Nursing Homes which were paid by the federal government and the state governments of Florida, Georgia, North Carolina and/or South Carolina.

#### WHEELER / ROSS / PRUITT / PRUITTHEALTH CONSPIRACY TO DEFRAUD

Organizations/Related Party laws, regulations and rules of the federal government and respective states of Florida, Georgia, North Carolina and/or South Carolina, all of the Defendants did knowingly, willfully and unlawfully conspire, agree and combine, explicitly and/or implicitly, to execute, and attempt to execute, a scheme or artifice to defraud the federal government and the respective state Medicaid programs by presenting, or causing the presentation of, false and

fraudulent claims, and to obtain, by means of false and fraudulent claims, pretenses, representations, documents or promises, money or property owned by, or under the custody or control of, the federal government and the Florida, Georgia, North Carolina and/or South Carolina Medicaid programs in connection with the delivery of or payment for health care benefits, items, or services.

- 135. Defendant Wheeler is, and upon information and belief, was at all times relevant to this action, a resident of South Carolina and the controlling owner, operator and manager of certain skilled nursing facilities in South Carolina and elsewhere, known as Laurel Baye Healthcare Company a/k/a Laurel Baye Healthcare, LLC (sometimes referenced herein as "Laurel Baye"). Upon information and belief, Laurel Baye Healthcare, LLC owns and/or operates, now and formerly, skilled nursing home facilities located in Greenville, Blackville, Orangeburg, Williston in South Carolina, in addition to Georgia skilled nursing facilities in Lake Lanier, Macon and Decatur which were eventually sold to entities owned and/or controlled by Pruitt/Pruitthealth.
- belief, is, and has been, at all times relevant to this action, the operator/manager, and possibly a part-owner of, certain companies furnishing health care goods, supplies, items, or services to skilled nursing homes (the "Bernie Ross Ancillary Companies"). Upon information and belief, Defendant Ross and Defendant Wheeler have been, at all times relevant to this action, and continue to be, business partners. Upon information and belief, Defendant Wheeler's son-in-law, Scott Meeks, works within the management of the Bernie Ross Ancillary Companies. Relator learned that these Bernie Ross Ancillary Companies also known and operated under the name of Allied Health Resources, LLC (sometimes referenced herein as "Allied Health"), and were

formerly known as Laurel Baye Allied Health Resources, LLC. Upon information and belief, the Laurel Baye and Allied Health companies operated primarily and/or exclusively in Georgia and South Carolina.

In 2005, the Relator became Director of Nursing at the 113-bed Laurel Baye nursing home in Orangeburg, South Carolina, and eventually became Administrator of the facility from January 2007 until October 2007, at which time the Relator voluntarily terminated her job at the SNF facility. As Administrator of the Laurel Baye of Orangeburg SNF facility, the Relator was instructed that Defendant Wheeler's Laurel Baye nursing homes were required to only purchase certain specific ancillary goods, items, supplies and services from the Bernie Ross Ancillary Companies, such as oxygen, respiratory, DME, specialty beds, etc.... As Administrator, the Relator further learned that Defendant Wheeler's Laurel Baye nursing homes were also required to purchase certain other specific ancillary goods, items, supplies and services, specifically pharmacy, hospice and medical supplies, from certain Pruitt/Pruitthealth Related Companies. As the Administrator of the Laurel Baye of Orangeburg nursing home, the Relator was directly mandated by VP of Operations Natasha Nadakarni that all of these aforementioned ancillary goods, items, supplies and services had to be acquired from the aforesaid designated companies, to wit, the Bernie Ross Ancillary Companies and the Pruitt/Pruitthealth Related Companies, without regard to cost, quality, experience, convenience, immediate need, history, mark-up or profit, or availability from other market sources. Upon information and belief, the overt acts of the conspiracy in restricting the Laurel Baye SNF's purchases of goods, items, supplies and services to certain Pruitt/Pruitthealth Related Companies and Bernie Ross Ancillary Companies were unlawfully executed with the knowledge, consent, and agreement by and between Wheeler, Ross, Bernie Ross Ancillary Companies, Pruitt,

Pruitthealth, UHSI, Nancy Pruitt, NP Trust, JP Trust, LP Trust, the Related Companies and the Defendant Nursing Homes. As a direct result of this restrictive purchasing policy imposed by Wheeler's Laurel Baye corporate office liaison, and the Administrator's loss of ability to negotiate ancillary costs, the Relator gained first-hand knowledge that the Laurel Baye of Orangeburg nursing facility was incurring unnecessary, unlawful and fraudulent increases in its total operating costs. These inflated costs were passed on to the Medicaid program, in violation of Cost to Related Organizations/Related Party laws, regulations and rules of the federal government and/or South Carolina, and were part a system-wide practice of the Pruitt/Pruitthealth and Wheeler/Ross organizations. Upon information and belief, the foregoing conspiracy to evade and violate the Cost to Related Organizations/Related Party laws, regulations and rules of the federal government and respective states of Georgia, North Carolina and/or South Carolina, resulted in the presentation of materially false claims which were unwittingly paid by the respective federal and state governments which would not have been paid had the truth of the conspiracy been known. Upon information and belief, the foregoing conspiracy to defraud was further carried out by similar purchasing restrictions on all of the Pruitt/Pruitthealth Defendant Nursing Homes and all of the other Laurel Baye/Wheeler controlled nursing homes to buy only from Pruitt/Pruitthealth Related Companies and Bernie Ross Ancillary Companies. Upon information and belief, the Wheeler/Laurel Baye SNFs and Pruitt/Pruitthealth Defendant Nursing Homes paid prices from the designated providers of items, goods, supplies and services, to wit, the Bernie Ross Ancillary Companies and the Pruitt/Pruitthealth Related Companies, which were in excess of fair market value and in excess of the said designated providers' actual costs of such items, goods and services. The Bernie Ross

Ancillary Companies and the Pruitt/Pruitthealth Related Companies made profits off of their sales to the Wheeler/Laurel Baye SNFs and the Defendant Nursing Homes.

- defraud was, and upon information and belief, continues to be, to provide a sham or artificial market for both the Bernie Ross Ancillary Companies and the Pruitt/Pruitthealth Related Companies. For instance, Defendant Wheeler and his Laurel Baye SNFs were ordering goods, items, supplies and services from the Bernie Ross Ancillary Companies, which Wheeler/Laurel Baye actually owned and/or substantially controlled. In order to try to partly justify the self-dealing between Wheeler/Laurel Baye SNFs and the Bernie Ross Ancillary Companies, they arranged unlawful agreements and conspired with the Pruitt/Pruitthealth entities and individuals, explicitly or implicitly, to have the Bernie Ross Ancillary Companies do some business with the Pruitt/Pruitthealth Defendant Nursing Homes in an effort to create a ruse or sham claim of trying to meet an Exception to the Related Organization Cost Principles by transacting so-called substantial business with other organizations not related to the provider. See CMS PRM, Pub. 15-1, Chapter 10, Section 1010.b. and 42 C.F.R. § 413.17(d)(iii) and (iv).
- 139. Likewise, the Pruitt/Pruitthealth Defendant Nursing Homes were ordering goods, items, supplies and services from the Pruitt/Pruitthealth Related Companies, which Pruitt/Pruitthealth actually owned and/or substantially controlled. In order to try to partly justify the self-dealing between the Defendant Nursing Homes and the Related Companies, they arranged unlawful agreements and conspired with Wheeler, Ross, the Wheeler/Laurel Baye SNFs and the Bernie Ross Ancillary Companies, explicitly or implicitly, to have the Bernie Ross Ancillary Companies do some business with the Pruitt/Pruitthealth Defendant Nursing Homes in an effort to create a ruse or sham claim of trying to meet an Exception to the Related

Organization Cost Principles by transacting so-called substantial business with other organizations not related to the provider.

- 140. One effect or purpose of the unlawful conspiracy and combination was to solicit, induce, maintain and pay for referrals from the Defendant Nursing Homes to the Bernie Ross Ancillary Companies in exchange for, or in return for, or as an inducement or *quid pro quo* for the Wheeler/Laurel Baye SNFs to provide, maintain and pay for referrals to the Pruitt/Pruitthealth Related Companies. Many, if not all, of the said referrals were for goods, items, supplies and services which were, and upon information and belief, continue to be, paid for by federal health care benefits programs, to wit, Medicare and Medicaid.
- arrangements described above violated the AKS Statute in one or more particulars, to wit, as a result of the *quid pro quo* swapping agreements: (a) the Defendants knowingly made or caused to be made false statement or representations of material fact in the Defendants' application for payment or claims for payment to the federal government health care benefits programs and aforesaid state governments in that the Defendants' costs were substantially in excess of usual and customary charges and also violated the laws, regulations and rules of applicable federal Related Organization/Related Party costs reporting requirements, in violation of 42 U.S.C. § 1320a-7b(a)(1) and (2); (b) the payments to the ancillary service providers the Pruitt/Pruitthealth Related Companies and the Bernie Ross Ancillary Companies to the extent that such payments were greater than the fair market value or the actual costs to these designated providers, constituted illegal remuneration for referrals, in knowing violation of 42 U.S.C. § 1320a-7b(b)(1) and (2); (c) pursuant to the illegal *quid pro quo* swapping agreements or swapping arrangements described above, the actual referrals from the Defendant Nursing

Homes/Pruitt-Pruitthealth Related Companies to the Bernie Ross Ancillary Companies constituted illegal remuneration in knowing violation of the AKS Statute; and (d) pursuant to the illegal *quid pro quo* swapping agreements or swapping arrangements described above, the actual referrals from the Wheeler/Laurel Baye nursing homes/Bernie Ross Ancillary Companies to the Pruitt-Pruitthealth Related Companies constituted illegal remuneration in knowing violation of the AKS Statute.

142. The conspiracy's illegal quid pro quo swapping agreements or swapping arrangements described above violated the Social Security Act, including, but not limited to, the provisions of the CMP Statute, in one or more particulars, to wit, as a result of the quid pro quo swapping agreements: (a) the Defendants knowingly presented or caused to be presented to an agency of the United States and/or one or more state agencies claims that were known, or should have known, to be false and fraudulent in violation of 42 U.S.C. § 1320a-7a(a)(1)(B); (b) the Defendants knowingly presented or caused to be presented to a person requests for payments which were in violation of a requirement not to charge a person for an item or service in excess of the amount permitted to be charged in violation of 42 U.S.C. § 1320a-7a(a)(2); (c) the payments to the ancillary service providers – the Pruitt/Pruitthealth Related Companies and the Bernie Ross Ancillary Companies – to the extent that such payments were greater than the fair market value or the actual costs to these designated providers, constituted illegal remuneration for referrals in knowing violation of the AKS Statute which constitutes a violation of 42 U.S.C. § 1320a-7a(7); and, (d) the Defendants knowingly made, used, or caused to be made or used, one or more false records or statements material to a false or fraudulent claims for payment for items or services furnished under a federal health care program in violation of 42 U.S.C. § 1320a-7a(8).

- arrangements described above violated the Social Security Act, including, but not limited to, the provisions of the Exclusions Statute, and its Substantially-In-Excess and Prohibited Activities provisions, in one or more particulars, to wit: (a) as a result of the *quid pro quo* swapping agreements, the Defendants knowingly submitted or caused to be submitted bills or requests for payment for items or services furnished substantially in excess of usual charges or costs in violation of 42 U.S.C. § 1320a-7(b)(6)(A); and, (b) the payments to the ancillary service providers the Pruitt/Pruitthealth Related Companies and the Bernie Ross Ancillary Companies to the extent that such payments were greater than the fair market value or the actual costs to these designated providers, constituted illegal remuneration for referrals in knowing violation of the AKS Statute which constitutes a violation of 42 U.S.C. § 1320a-7(b)(7).
- Nursing Homes and the Wheeler/Laurel Baye SNFs were, in whole or substantial part, reimbursed by the federal government and the states of Florida, Georgia, North Carolina and/or South Carolina through their respective Medicaid programs. The foregoing conspiracy, combination, scheme and artifice to defraud resulted in, and, upon information and belief, continues to result in, transactions for goods, items and services purchased by the Pruitt/Pruitthealth Defendant Nursing Homes and the Wheeler/Laurel Baye nursing homes from the Pruitt/Pruitthealth Related Companies and the Bernie Ross Ancillary Companies which were not arm's length, were not bona fide, were above actual costs, did not reflect the fair market value of such goods, items and services on the open market, and were made in bad faith for the purposes of defrauding the federal government and the Medicaid programs of Georgia, North Carolina and/or South Carolina, all in violation of the Cost to Related Organization/Related Party

laws, regulations and rules of the federal government and respective states of Florida, Georgia, North Carolina and/or South Carolina, the Substantially-in Excess Rules and regulations, the CMP Statute, the Exclusions Statute, the AKS Statute and related rules and regulations, and the federal FCA and the false claims statutes and/or Medicaid Fraud Statutes of Florida, Georgia, North Carolina and/or South Carolina.

- the states of Florida, Georgia, North Carolina and/or South Carolina, either in interim claims or pursuant to annual cost reports, the Defendants made the following express or implied certifications or representations, to wit: (a) the claims were true, complete and accurate; (b) the claims were in compliance with the AKS Statute; (c) the claims were in compliance with the Exclusion Statute, including, but not limited to, its Substantially-In-Excess provisions; (d) the claims were in compliance with the CMP Statute; (e) the claims were in compliance with the laws, regulations (including 42 C.F.R. § 413.17), rules and manuals regarding Costs to Related Organizations/Related Parties; (f) the claims were in compliance with the Medicare and/or Medicaid programs' statutes, regulations, rules and manuals. As a result of the foregoing conspiracy, combination, scheme and artifice to defraud, the Defendants' foregoing certifications and representations to the federal government and aforesaid state governments were false and fraudulent.
- 146. The foregoing conspiracy, combination, scheme and artifice to defraud resulted in, and, upon information and belief, continues to result in, materially false claims for payment being presented to, and paid by, the federal government and the states of Florida, Georgia, North Carolina and/or South Carolina through their respective Medicaid programs, which would not have been paid had the fraudulent nature of the conspiracy and the resulting knowingly

fraudulent claims been known by the federal government and the states of Florida, Georgia, North Carolina and/or South Carolina.

# **INFLATED COSTS FOR PHARMACY SERVICES**

- 147. After the CHOW, the Pruitt/Pruitthealth-owned, controlled and/or affiliated Related Company entity United Pharmacy, for example, unnecessarily over-charged the Pruitt-Bamberg SNF facility for the purchase of all new medication carts and medications.
- 148. There was nothing wrong with the existing medication carts or medications at the Pruitt-Bamberg SNF which United Pharmacy just arbitrarily threw away and replaced.
- 149. These medically unnecessary, inflated costs and expenses that the Pruitt-Bamberg SNF was forced to incur with respect to the replaced medication carts and medications as a result of the mandated business arrangement with United Pharmacy, were not fair market value, were not the result of competitive bidding, and could easily have been avoided by simply keeping the existing medication carts and medications.
- 150. In Relator's experience, after the CHOW, the United Pharmacy medications supplied to the Pruitt-Bamberg SNF were inflated above United Pharmacy's costs, included a profit for United Pharmacy, and were above fair market value.
- 151. Relator was forbidden by Pruitt/Pruitthealth from seeking competitive bids for medications for patients after the CHOW.
- 152. Pruitt/Pruitthealth also inflated costs to the Pruitt-Bamberg SNF facility by imposing the costs of a mandatory pharmacy consultant upon the SNF.
- 153. Upon information and belief, immediately after the CHOW the Pruitt-Bamberg SNF was charged a monthly rate of approximately \$10,000 to have a United Pharmacy Services pharmacy consultant available for the facility.

- 154. The cost and expense of the Pharmacy Services consultant imposed upon the Pruitt-Bamberg SNF after the CHOW far exceeded the fair market value cost and expense of a non-Pruitt/Pruitthealth pharmacy consultant.
- 155. Before the CHOW, the Relator used the pharmacy consultant which was on staff at the Bamberg Hospital.
- 156. After the CHOW, Pruitt-Bamberg SNF was forced by Pruitt/Pruitthealth to pay the aforesaid monthly pharmacy services consultant fee regardless of the amount and quality of services provided to the facility by the consultant.
- 157. Relator, as administrator of the Pruitt-Bamberg SNF, was not allowed to bid for the services of a pharmacy consultant after the CHOW.
- 158. As the Pruitt-Bamberg SNF administrator, Relator was repeatedly told by Pruitt/Pruitthealth-controlled management that each Pruitt/Pruitthealth-controlled Related Company vendor was treated as a separate profit center.
- 159. As the Pruitt-Bamberg SNF administrator, Relator was repeatedly told by Pruitt/Pruitthealth-controlled management, including Pruitt/Pruitthealth Regional Administrator Brian Warrick, that each Pruitt/Pruitthealth-controlled Related Company vendor, mandated to do business with the Pruitt-Bamberg SNF, had its own cost center which needed to show a profit.
- 160. As the Pruitt-Bamberg SNF administrator, Relator was repeatedly told by Pruitt/Pruitthealth-controlled management that Pruitt-Bamberg SNF had to incur the charges of each Pruitt-controlled Related Company vendor, which included the vendor's profit above its costs, mandated by Pruitt/Pruitthealth to do business with the Pruitt-Bamberg SNF, as each such vendor had its own cost center which needed to show a profit for the Pruitt/Pruitthealth organization.

- 161. Upon information and belief, after the CHOW, Pruitt/Pruitthealth and/or the Pruitt-Bamberg SNF submitted, and continues to submit, interim claims and annual cost reports to the federal government, as claims for payment or reimbursement, which included the excessive and unnecessary costs of pharmacy medications, pharmacy carts, and pharmacy services consultants which were unnecessarily inflated, exceeded the fair market value costs of such goods and services that could have been obtained by competitive bidding, which were medically unnecessary and unreasonable, and which included profits paid to the Pruitt/Pruitthealth affiliated/related organizations, to wit, the Related Companies.
- 162. Relator was informed by Pruitt/Pruitthealth management that these additional, unnecessary, and above-fair market value costs and expenses for Related Company consultants pharmacy medications and pharmacy carts were part of a system wide practice and protocol for all Defendant Nursing Homes as mandated by Pruitt/Pruitthealth management, that the Defendant Nursing Homes submitted interim claims and annual cost reports as claims for payment and reimbursement from the federal government, all of which resulted in, and upon information and belief, continue to result in, materially false and fraudulent claims from all of the Defendant Nursing Homes which were paid, and continue to be paid, by the federal government and state governments of Florida, Georgia, North Carolina and/or South Carolina.
- 163. As further described hereinbelow, Medicaid pays a SNF based upon 2 levels of patient care Skilled Nursing Care patients (higher reimbursement) and Intermediate Care patients (lower reimbursement) and the payment is received "from Medicaid based on the # of patients x the # of days for each level" which results in a cost report calculation that gives you a Medicaid reimbursement "per diem" being paid the SNF prospectively for the next year.

- 164. In addition to the fraudulently inflated costs and expenses foisted upon the Pruitt-Bamberg SNF facility as described above, upon information and belief, Pruitt/Pruitthealth and their controlled and affiliated Related Companies fraudulently have increased, and continue to increase, the costs of patient care at all of the Defendant Nursing Homes/SNF facilities which were acquired, owned, controlled and/or managed by Pruitt/Pruitthealth and their affiliates, including but not limited to the following examples:
- Georgia (now known as Pruitthealth-Augusta, LLC) was acquired by Pruitt/Pruitthealth on or about December 1, 2008, and its Medicaid facility cost reports show that there was an increase in Adjusted Inpatient Routine Services Costs per Diem from \$115.72 to \$161.04 between the last full year of operations prior to the Pruitt/Pruitthealth acquisition (ending June 30, 2008) to the first full year of operations by Pruitt/Pruitthealth (ending June 30, 2010). This dramatic increase in the Medicaid per patient per day per diem demonstrates the exaggerated costs that the Pruitt/Pruitthealth organizations systematically imposed on the Defendant Nursing Homes. In this case, the Medicaid per patient per day per diem increase by about forty percent (40%) with no legitimate reason for such a cost increase.
- 166. A comparison of the aforesaid 2008 and 2010 cost reports, attached hereto and incorporated herein by reference as **Exhibit 12** and **Exhibit 13**, demonstrates this increase.
- 167. Likewise, the Bethany Home of Millen, a 100-bed SNF located in Millen, Georgia (now known as Pruitthealth-Bethany, LLC) was acquired by Pruitt/Pruitthealth on or about November 1, 2010, and its Medicaid facility cost reports show that there was an increase in Adjusted Inpatient Routine Services Costs per Diem from \$127.42 to \$180.08 between the last full year of operations prior to the Pruitt/Pruitthealth acquisition (ending June 30, 2009) to the

full year of operations by Pruitt/Pruitthealth (ending June 30, 2011). In this case, the Medicaid per patient per day per diem increase by over forty percent (>40%) with no legitimate reason for such a cost increase.

168. A comparison of the aforesaid 2009 and 2011 cost reports, attached hereto and incorporated herein by reference as **Exhibit 14** and **Exhibit 15**, demonstrates this increase. Upon information and belief, these fraudulent cost increases were systemic throughout the Pruitt/Pruitthealth organization, and resulted, and, continue to result, in materially false and fraudulent claims being presented by the Defendant Nursing Homes and Related Companies to the federal and aforesaid state governments for payment.

# FRAUDULENTLY UPCODING MEDICAID PATIENTS WITH FRAUDULENT RAI RE-ASSESSMENTS

- 169. In addition to the fraudulently inflated costs and expenses to the Pruitt-Bamberg SNF facility, Pruitt/Pruitthealth and their controlled and affiliated Related Companies fraudulently upcoded the SNF's Medicaid patients' health assessments which fraudulently inflated care and treatment after the CHOW.
- 170. In general, when a long-term patient is initially admitted to an SNF, within 5 days (and periodically thereafter at least quarterly) an SNF nurse (the "MDS nurse") must coordinate, schedule and complete a Resident Assessment Instrument ("RAI"), which is a detailed clinical assessment of the patient's functional capabilities and health problems in accordance with federal guidelines and criteria known as the Minimum Data Set ("MDS"), and the RAI is sent to CMS, which collects the data and information contained therein. 42 C.F.R. §§ 413.343(b), 483.20(b), (h), (i).
- 171. The RAI includes information, data and assessments including the following: Identification and demographic information; Customary Routine, Cognitive Patterns,

Communication, Vision, Mood and Behavior Patterns, Psychosocial Well-Being, Physical Functioning and Structural Problems, Continence, Disease Diagnoses and Health Conditions, Dental and Nutritional Status, Skin Condition, Activity Pursuit, Medications, Special Treatments and Procedures, and Discharge Potential. 42 C.F.R. § 483.20(b)(1).

- 172. The MDS nurse creates a care plan for each SNF patient resident based upon the results of the RAI assessment.
  - 173. The RAI must be accurate. 42 C.F.R. § 483.20(g).
- 174. Each individual who completes a portion of the RAI must sign and certify the accuracy of that portion of the assessment. 42 C.F.R. § 483.20(i)(2).
- 175. Federal regulations impose a penalty for falsification of an RAI. 42 C.F.R. § 483.20(j) provides, in part, as follows:
  - (1) Under Medicare and Medicaid, an individual who willfully and knowingly—
    - (i) Certifies a material and false statement in a resident assessment is subject to a civil money penalty of not more than \$1,000 for each assessment; or
    - (ii) Causes another individual to certify a material and false statement in a resident assessment is subject to a civil money penalty of not more than \$5,000 for each assessment.
- 176. Immediately after the CHOW, Pruitt management sent in United Clinical consultants to re-assess the Pruitt-Bamberg SNF patients' conditions which resulted in fraudulent upcoding by the Pruitt-Bamberg SNF.
- 177. At the time, none of the Pruitt-Bamberg SNF patients had experienced a substantial change in condition which warranted a RAI re-assessment.
- 178. The patient re-assessments and re-evaluations were done by Pruitt/Pruitthealth controlled and/or affiliated consultants in order to falsely increase the billings to Medicaid by the

Pruitt-Bamberg SNF by fraudulently assessing Medicaid patients with conditions worse than the patients actually experienced at the time.

- 179. These fraudulent re-assessments and re-evaluations of patients were done without true medical evaluations of the patients at the Pruitt-Bamberg SNF facility, and became part of the patients' medical charts, plans of care, electronic health records ("EHRs"), and electronic medical records ("EMRs").
- 180. These fraudulent re-assessments and re-evaluations of Pruitt-Bamberg SNF patients were performed in complete and utter disregard of the prior assessments, diagnoses and evaluations done by the facility's long-time nursing staff who had cared for the facility's patients prior to the CHOW. These long-time nursing staff were intimately more familiar with the facility's patients' conditions than the Pruitt/Pruitthealth consultants, and some of the patients had been treated by the nursing staff for long periods of time.
- 181. These fraudulent re-assessments and re-evaluations of Pruitt-Bamberg SNF patients resulted in medically unnecessary and unreasonable treatment with higher billing codes than were warranted by the patients' true conditions.
- 182. These fraudulent re-assessments and re-evaluations and care plans of Pruitt-Bamberg SNF patients were performed primarily by United Clinical consultants who intentionally did not use or follow appropriate qualifying criteria in their re-assessments which resulted in many, if not all, Medicaid patients being <u>re-assessed as skilled care patients rather</u> than intermediate care patients that they really were.
- 183. When the Pruitt/Pruitthealth-owned, controlled and/or affiliated United Clinical consultants fraudulently inflated and/or falsely upcoded almost all the Pruitt-Bamberg SNF Medicaid patients' conditions as being skilled care patients rather than intermediate care patients

that they really were, the SNF immediately began submitting inflated, fraudulent bills, invoices and claims to the federal government and/or state of South Carolina for reimbursement, upon information and belief, in either electronic or paper form, and Pruitt-Bamberg SNF received payment from the federal government and aforesaid state government of South Carolina for such materially false and fraudulent claims.

- 184. In or about September, 2009, Pruitt/Pruitthealth management of the Defendant Nursing Homes imposed goals of achieving an 85% skilled intensity Medicaid census and a minimum of 82% therapy utilization on Medicare Part A patients.
- 185. The foregoing re-assessments were implemented to meet and/or maintain the stated Pruitt/Pruitthealth goals, as more fully set out in an 11/16/2009 email, **Exhibit 16**, attached hereto and incorporated herein by reference.
- 186. In submitting or presenting claims for payment to the federal government and/or the state of South Carolina, either in interim claims or pursuant to annual cost reports, the Defendants made the following express or implied certifications or representations, to wit: (a) the claims were true, complete and accurate; (b) the claims were for therapy services which were medically necessary and reasonable; and, (c) the claims were in compliance with the Medicare and/or Medicaid programs' statutes, regulations, rules and manuals. As a result of the foregoing conspiracy, combination, scheme and artifice to defraud, the Defendants' foregoing certifications and representations to the federal government and aforesaid state government were false and fraudulent.
- 187. Upon information and belief, similar fraudulent upcoding practices with respect to Medicaid patients, and resulting materially false and fraudulent claim, occurred at each of the Defendant Nursing Homes since at least 2009. Upon information and belief, the aforesaid state

and federal governments, including the Medicaid program, did not know of the false and fraudulent nature of the foregoing upcoded claims which had been initiated by Pruitt/Pruitthealth Related Company consultants after the CHOW for the Pruitt-Bamberg SNF facility.

188. Upon information and belief, had the aforesaid state and federal governments, including the Medicaid program, known of the true, fraudulent nature of the foregoing upcoded patient conditions to skilled care patients rather than immediate care patients, the federal government and/or the state of South Carolina would not have made payments in reimbursement of such false and fraudulent claims to Pruitt-Bamberg SNF and Pruitthealth.

## FRAUDULENTLY UPCODING MEDICARE PATIENTS' RUG LEVELS

- 189. Similarly, with respect to Medicare Part A patient residents of the Pruitt-Bamberg SNF facility, United Clinical consultants falsely and fraudulently re-assessed them from their existing Resource Utilization Group ("RUG") scores and upcoded their status to new, higher scores that were most costly to Medicare and most profitable to Pruitt.
- 190. Instead of providing skilled rehabilitation therapy that was tailored to beneficiaries' particular needs, the United Clinical consultants re-assessed nearly all of the existing Medicare patients immediately after the CHOW with fraudulent RAI instruments and MDS information. These materially false and fraudulent RAI instruments and false MDS information became part of the Pruitt-Bamberg SNF patients' medical charts, medical records, EHRs and EMRs.
- 191. As a direct result of Pruitt/Pruitthealth's and their affiliates' efforts to fraudulently maximize higher levels of therapy revenues at the Pruitt-Bamberg SNF from the Medicare program, the SNF's therapists provided federal health insurance beneficiaries with excessive amounts of therapy that was not medically reasonable nor medically necessary. The Pruitt-

Bamberg SNF's therapists routinely provided more intense, non-individualized services that did not (and could not) benefit the Medicare beneficiaries and that served primarily to inflate the Pruitt-Bamberg SNF facility's bills and claims for payment presented to the federal government's Medicare program for those beneficiaries through interim claims for payment and through cost reports.

- Pruitt/Pruitthealth and its management to expand the profit margins of the SNFs, Related Companies, and other Pruitthealth entities at all costs and regardless of the medical necessity, reasonableness or effect on the patients. Soon after the CHOW, on or about November 19, 2009, Pruitt/Pruitthealth Regional Administrator Brian Warrick sent an email to Relator and other Defendant Nursing Home administrators, with an attached list of "20 Questions Reviewed before Rehab Discontinuation," encouraging them to use the questions as a means to increase the SNFs' patients' length of stay ("LOS") at their respective nursing homes. **Exhibit 17**, is the subject email and attached list, which is attached hereto and incorporated herein by reference. The other Defendant Nursing Home administrators who received the email included Joseph J. Carr, Michelle Hay, Carol Carlisle, Tom Markuszka, Tammy E. Carter, Brenda Parris, Brenda Hughes, Theodocia W. Martin, Rebecca S. Stephenson, Dean Smith, Michelle Santilli, and Nancy W. McKinstry.
- 193. Brian Warrick stated in his email that the "Northern Peach region Administrators have used this and had successful results in adding to their LOS. This, of course, would assist in generating a higher Medicare census. Let me know how it works for you." Id. Administrator Suzanne Gerhardt, who was already using the questions, had previously

told Brian Warrick and others that "you guys may already have this but..if not... we are using these questions to help increase our LOS." Id.

- 194. Number 18 of the 20 Questions List states tellingly: "Have we left 'no stone unturned' and enabled the patient to receive max time/treatment entitled under Medicare Part A guidelines?" Id.
- 195. Clearly, the focus of management was on increasing profits by increasing the SNFs' patients' length of stay, and this motivation underscored the fraudulent reassessments of the patients' RAIs right after the CHOW.
- 196. Subject to certain conditions, Medicare Part A covers up to 100 days of skilled nursing and rehabilitation care for a benefit period (i.e., spell of illness) following a qualifying hospital stay of at least three consecutive days. 42 U.S.C. § 1395d(a)(2)(A); 42 C.F.R. § 409.61(b), (c).
- 197. The conditions that Medicare imposes on its Part A skilled nursing facility benefit include: (1) that the patient requires skilled nursing care or skilled rehabilitation services (or both) on a daily basis, (2) that the daily skilled services must be services that, as a practical matter, can only be provided in a skilled nursing facility on an inpatient basis, and (3) that the services are provided to address a condition for which the patient received treatment during a qualifying hospital stay or that arose while the patient was receiving care in a skilled nursing facility (for a condition treated during the hospital stay). 42 U.S.C. § 1395f(a)(2)(B); 42 C.F.R. § 409.31(b).
- 198. Medicare requires that a physician or certain other practitioners certify that these conditions are met at the time of a patient's admission to the nursing facility and to re-certify to the patient's continued need for skilled rehabilitation therapy services at regular intervals

thereafter. 42 U.S.C. § 1395f(a)(2)(B); Medicare General Information, Eligibility, and Entitlement Manual, Ch. 4, § 40.3.

- 199. To be considered a skilled service, it must be "so inherently complex that it can be safely and effectively performed only by, or under the supervision of, professional or technical personnel," 42 C.F.R. § 409.32(a), such as physical therapists, occupational therapists, or speech pathologists. 42 C.F.R. § 409.31(a).
- 200. Skilled rehabilitation therapy generally does not include personal care services, such as the general supervision of exercises that have already been taught to a patient or the performance of repetitious exercises (e.g., exercises to improve gait, maintain strength or endurance, or assistive walking). 42 C.F.R. § 409.33(d). "Many skilled nursing facility inpatients do not require skilled physical therapy services but do require services, which are routine in nature. Those services can be performed by supportive personnel; e.g., aides or nursing personnel . . . ." Medicare Benefit Policy Manual, Chapter 8, § 30.4.1.1.
- 201. Medicare Part A will only cover those services that are reasonable and necessary. 42 U.S.C. § 1395y(a)(1)(A); 42 U.S.C. § 1320c-5(a)(1) (providers must assure that they provide services economically and only when, and to the extent, medically necessary); 42 U.S.C. § 1320c-5(a)(2) (services provided must be of a quality which meets professionally recognized standards of health care).
- 202. In the context of skilled rehabilitation therapy, this means that the services furnished must be consistent with the nature and severity of the patient's individual illness, injury, or particular medical needs; must be consistent with accepted standards of medical practice; and must be reasonable in terms of duration and quantity. Medicare Benefit Policy Manual, Ch. 8, § 30.

- 203. In order to assess the reasonableness and necessity of those services and whether reimbursement is appropriate, Medicare requires proper and complete documentation of the services rendered to beneficiaries. In particular, the Medicare statute provides that: "No payment shall be made to any provider of services or other person under this part unless there has been furnished such information as may be necessary in order to determine the amounts due such provider or other person under this part for the period with respect to which the amounts are being paid or for any prior period." 42 U.S.C. § 13951(e).
- 204. Under its Prospective Payment System ("PPS"), Medicare pays a nursing facility a pre-determined daily rate for each day of skilled nursing and rehabilitation services it provides to a patient. 63 Fed. Reg. 26,252, 26,259-60 (May 12, 1998).
- 205. The daily PPS rate that Medicare pays a nursing facility depends, in part, on the RUG level to which a patient is assigned. Each distinct RUG is intended to reflect the anticipated costs associated with providing nursing and rehabilitation services to beneficiaries with similar characteristics or resource needs. From January 1, 2006, to October 1, 2010, there were 53 RUGs in the so called "RUG-III" classification system. 70 Fed. Reg. 45,026, 45,031 (Aug. 4, 2005).
- 206. There are generally five rehabilitation RUG levels for those beneficiaries that require rehabilitation therapy: Rehab Ultra High (known as "RU"), Rehab Very High ("RV"), Rehab High ("RH"), Rehab Medium ("RM"), and Rehab Low ("RL").
- 207. The rehabilitation RUG level to which a patient is assigned depends upon the number of skilled therapy minutes a patient received and the number of therapy disciplines the patient received during a seven-day assessment period (known as the "look-back period"). The

chart below reflects the requirements for the five rehabilitation RUG levels under the RUG-III classification system.

Rehabilitation RUG Level	Requirements to Attain RUG Level
RU = Ultra High	minimum 720 minutes per week total therapy combined from at least two therapy disciplines; one therapy discipline must be provided at least 5 days per week
RV = Very High	minimum 500 minutes per week total therapy; one therapy discipline must be provided at least 5 days per week
RH = High	minimum 325 minutes per week total therapy; one therapy discipline must be provided at least 5 days per week
RM = Medium	minimum 150 minutes per week total therapy; must be provided at least 5 days per week but can be any mix of therapy disciplines
RL = Low	minimum 45 minutes per week total therapy; must be provided at least 3 days per week but can be any mix of therapy disciplines

Source: 63 Fed. Reg. at 26,262

- 208. Medicare pays the most for those beneficiaries that fall into the Ultra High RUG level. The Rehab Ultra High ("RU") RUG level is "intended to apply only to the most complex cases requiring rehabilitative therapy well above the average amount of service time." 63 Fed. Reg. 26,252, 26,258 (May 12, 1998).
- 209. In addition to reflecting a patient's rehabilitation therapy needs, each RUG also reflects the patient's ability to perform certain activities of daily living ("ADL"), like eating, toileting, bed mobility and transfers (e.g., from a bed to a chair). A patient's ADL score (ranging from A to C) reflects his or her dependency level when performing an ADL. A very dependent patient, who cannot perform any of the ADLs without assistance, would generally receive an ADL score of "C," while a patient who could perform the ADLs without assistance would receive an ADL score of "A."

- 210. In addition to the ADL scores of A, B, and C, Medicare provides "X" and "L" ADL scores for those beneficiaries that require "extensive services" in addition to rehabilitation therapy. Extensive services include intravenous treatment, ventilator or tracheostomy care, or suctioning. A very dependent rehabilitation patient who requires more extensive services would generally receive an ADL score of "X," while a patient who needs only one of the extensive services might receive an ADL score of "L."
- 211. To provide a sense of the tremendous impact that a RUG level or ADL score has on the Medicare daily rate, provided below is a summary chart reflecting the adjusted rates that Medicare paid nursing facilities for rehabilitation beneficiaries in fiscal year 2006. Medicare adjusts base rates annually and based on locality. 42 U.S.C. § 1395yy(e)(4)(E)(ii)(IV).

212. CMS has made certain modifications to the RUG-III structure through its RUG-IV classification system, which increased the number of RUGs to 66, and became effective October 1, 2010. CMS added new clinical RUG categories, modified the timeframe in which each assessment must be performed, required that nursing facilities assess changes in the level of

therapy every seven days, and revised certain rules pertaining to group therapy, among other changes. 74 Fed. Reg. 40,288 (Aug. 11, 2009).

- 213. The MDS is used as the basis for determining a patient's RUG level and, therefore, the daily rate that Medicare will pay a nursing facility to provide skilled nursing and therapy to that patient.
- 214. In general, a nursing facility must assess each patient and complete the MDS form on the 14th, 30th, 60th, and 90th day of the patient's Medicare Part A stay in the facility. A nursing facility may assess each patient and complete the MDS form on the 5th day of the patient's Medicare Part A stay in the facility. The date the facility performs the assessment is known as the assessment reference date. A nursing facility may perform the assessment within a window of time before this date, or, under certain circumstances, up to five days after. When a nursing facility performs its assessment (except for the first assessment), it looks at the patient for the seven days preceding the assessment reference date. As discussed above, this seven day assessment period is referred to as the "look-back period."
- 215. The MDS collects clinical information on over a dozen criteria, including hearing, speech, and vision; cognitive patterns; health conditions; and nutritional and dental status.

  Section P of the MDS (2.0 version, "Special Treatments and Procedures" and Section O in the 3.0 version) collects information on how much and what kind of skilled rehabilitation therapy the facility provided to a patient during the look-back period. In particular, Section P shows how many days and minutes of therapy a nursing facility provided to a patient in each therapy discipline (i.e., physical therapy, occupational therapy, and speech-language pathology and audiology services). As discussed below, the information contained in Section P directly impacts the rehabilitation RUG level to which a patient will be assigned.

- 216. In most instances, the RUG level determines Medicare payment prospectively for a defined period of time. 63 Fed. Reg. at 26,267. For example, if a patient is assessed on day 14 of his stay, and received 720 minutes of therapy during days 7 through 14 of the stay, then the facility will be paid for the patient at the Ultra High RUG level for days 15 through 30 of the patient's stay. Payment for days 1 through 14 is based on the number of therapy minutes provided through the five-day assessment, as well as an estimate of the number of minutes to be provided through day 14. 63 Fed. Reg. at 26,265-67; 64 Fed. Reg. at 41,662.
- 217. Prior to October 1, 2010, the nursing facility would electronically transmit the MDS form to a state's health department or other appropriate agency, which in turn would transmit the data to CMS. 42 C.F.R. § 483.20(f)(3) (2008); 42 C.F.R. § 483.315(h)(1)(v) (2008). Since October 1, 2010, nursing facilities transmit the data directly to CMS. 42 C.F.R. § 483.20(f)(3).
- 218. Completion of the MDS is a prerequisite to payment under Medicare. 63 Fed. Reg. at 26,265. The MDS itself requires a certification by the provider that states, in part: "To the best of my knowledge, this information was collected in accordance with applicable Medicare and Medicaid requirements. I understand that this information is used as a basis for ensuring that residents receive appropriate and quality care, and as a basis for payment from federal funds." Minimum Data Set ("MDS") Versions 2.0 and 3.0 for Nursing Home Resident Assessment and Care Screening.
- 219. A patient's RUG information is incorporated into the Health Insurance Prospective Payment System (HIPPS) code, which Medicare uses to determine the payment amount owed to the nursing facility. The HIPPS code must be included the form CMS-1450, which nursing facilities submit electronically to Medicare for payment. Medicare Claims

Processing Manual, Ch. 25, § 75.5. Medicare payment will depend largely on the HIPPS code the nursing facility submitted as part of the CMS-1450. 63 Fed. Reg. at 26,267; Medicare Claims Processing Manual, Ch. 25, § 75.5.

- 220. CMS rules and regulations require all medical care provided by designated health care providers to be reasonable and medically necessary, as generally set forth in, among others, 42 U.S.C. § 1320c-5(a), 42 C.F.R. §§ 482.11, 482.12, 482.22, and 482.56.
- 221. CMS rules and regulations require that medical charts accurately and reasonably detail the medical services and medical treatment provided to patients, as generally set forth in, among others, 42 C.F.R. § 482.24.
- 222. After the CHOW, Relator gained personal knowledge that Pruitt/Pruitthealth, United Clinical, Pruitt-Bamberg SNF and affiliated Related Companies embarked on a systematic scheme to defraud the federal government by re-assessing SNF patients and falsely upcoding most, if not all, of their RUG levels to the Very High (RV) level or Ultra High (RU) level which was medically unnecessary, excessive, unreasonable under the circumstances, and, in most instances, not ordered or certified by a physician, and without justification for such high level of RUG assessments and the related treatments.
- 223. Defendant Pruitt-Bamberg SNF provided therapy to Medicare Part A patients which was pursuant to inflated RUG levels of patients in order to qualify for reimbursements from the federal government which were higher than what justified by the patients' conditions, illnesses or injuries.
- 224. Upon information and belief, after the CHOW, Pruitt-Bamberg SNF therapists routinely used materially false and fraudulent daily therapy schedule time sheets, in part, to continue the upcoded and inflated RUG levels of patients which were initially fraudulently set by

the United Clinical consultants in the RAIs/MDSs all in order to fraudulently gain maximum reimbursements from the federal government. The information from these materially fraudulent daily therapy schedule time sheets was used by the Defendants to continue to upcode the MDS patient assessment forms so that patients would be assigned inflated RUG levels higher than what they were in reality qualified to receive. The upcoded therapies were routinely and fraudulently used to inflate the therapies provided during the "look-back period" which increased the number of therapy minutes which were used to set the RUG levels. Once the fraudulent higher RUG levels were assigned to federal health care beneficiaries/patients, Pruitt-Bamberg SNF obtained payments from Medicare in excess of what it was entitled.

- 225. In submitting or presenting claims for payment to the federal government, either in interim claims or pursuant to annual cost reports, the Defendants made the following express or implied certifications or representations, to wit: (a) the claims were true, complete and accurate; (b) the claims were for therapy services which were medically necessary and reasonable; and, (c) the claims were in compliance with the Medicare and/or Medicaid programs' statutes, regulations, rules and manuals. As a result of the foregoing conspiracy, combination, scheme and artifice to defraud, the Defendants' foregoing certifications and representations to the federal government were false and fraudulent.
- 226. Upon information and belief, similar fraudulent upcoding practices with respect to Medicare patients, and resulting materially false and fraudulent claims, occurred at each of the Defendant Nursing Homes since at least 2009.
- 227. Upon information and belief, the federal government, including the Medicare program, did not know of the false and fraudulent nature of the foregoing upcoded claims which had occurred by Pruitt after the CHOW for the Pruitt-Bamberg SNF facility.

- 228. Upon information and belief, had the federal government, including the Medicare program, known of the true, fraudulent nature of the foregoing upcoded patient RUG levels, the federal government would not have made payments in reimbursement of such false and fraudulent claims to Pruitt/Pruitthealth and/or Pruitt-Bamberg SNF.
- 229. Upon information and belief, the Defendants received payments from the United States for the false and fraudulent billings and claims for payment set forth above. Relator learned from her employment at the Pruitt-Bamberg SNF that these foregoing fraudulent schemes and practices involving the Pruitt-Bamberg SNF and all of the Defendant Nursing Homes have been ongoing since at least August 3, 2009, and, upon information and belief, are ongoing.

## HOSPICE FRAUD CLAIMS AND SCHEME

- 230. During Relator's employment at the Pruitt-Bamberg SNF, she obtained personal knowledge of a number of various Medicare/Medicaid frauds and fraudulent schemes perpetrated by and between the Pruitt-Bamberg SNF, the Defendant Hospice, the Defendant Nursing Homes and the Pruitt/Pruitthealth-related organizations, individuals and trusts.
- 231. In general, Medicare provides a covered benefit for individuals who qualify for hospice care. Hospice care involves those services and items provided to a terminally ill individual pursuant to a written plan of care established and periodically reviewed and updated by the individual's attending physician or the medical director of a hospice program. 42 U.S.C. § 1395x(d)(d)(1); 42 C.F.R. § 418.20. An individual qualifies as "terminally ill" if the individual has a medical prognosis of a life expectancy that is 6 months or less. 42 U.S.C. § 1395x(d)(d)(3). The treatment provided to a hospice patient must be palliative care (generally

relieving pain, managing symptoms and optimizing the quality of life), and not curative care. 42 C.F.R. § 418.3.

- writing that the patient's physician and the medical director of the hospice must certify in writing that the patient is "terminally ill." 42 U.S.C. § 1395f(a)(7); 42 C.F.R. § 418.20. After a patient's initial certification, Medicare provides for two ninety-day benefit periods followed by an unlimited number of sixty-day benefit periods. 42 U.S.C. § 1395d(a)(4). At the end of each ninety- or sixty-day period, the patient can be re-certified only if at that time he or she has less than six months to live if the illness runs its normal course. 42 U.S.C. § 1395f(a)(7)(A). The written certification and re-certifications must be maintained in the patient's medical records. 42 C.F.R. § 418.23. A written plan of care must be established for each patient setting forth the types of hospice care services the patient is scheduled to receive, 42 U.S.C. § 1395f(a)(7)(B), and the hospice care has to be provided in accordance with such plan of care. 42 U.S.C. § 1395f(a)(7)(C); 42 C.F.R. § 418.56. Clinical records for each hospice patient must be maintained by the hospice, including plan of care, assessments, clinical notes, signed notice of election, patient responses to medication and therapy, physician certifications and recertifications, outcome data, advance directives and physician orders. 42 C.F.R. § 418.104.
- 233. The hospice must obtain a written notice of election from the patient to elect to receive Medicare hospice benefits. 42 C.F.R. § 418.24. Once a patient has elected to receive hospice care benefits, the patient waives Medicare benefits for curative treatment for the terminal disease upon which is the admitting diagnosis. 42 C.F.R. § 418.24(d).
- 234. The hospice must designate an Interdisciplinary Group (IDG) or groups composed of individuals who work together to meet the physical, medical, psychosocial, emotional, and spiritual needs of the hospice patients and families facing terminal illness and bereavement. 42

C.F.R. § 418.56. The Medicare hospice regulations, at 42 C.F.R. § 418.200, summarize the requirements for hospice coverage in pertinent part as follows:

To be covered, hospice services must meet the following requirements. They must be reasonable and necessary for the palliation and management of the terminal illness as well as related conditions. The individual must elect hospice care in accordance with §418.24. A plan of care must be established and periodically reviewed by the attending physician, the medical director, and the interdisciplinary group of the hospice program as set forth in §418.56. That plan of care must be established before hospice care is provided. The services provided must be consistent with the plan of care. A certification that the individual is terminally ill must be completed as set forth in section §418.22.

- 235. Medicare benefits are available only for those medical treatments which are "reasonable and necessary for the palliation and management of terminal illness." 42 U.S.C. § 1395y(a); 42 C.F.R. § 418.50.
- 236. Medicare does not pay a hospice benefit for room and board. When a hospice patient is eligible for Medicaid, too, and is a resident of a nursing home or SNF, Medicaid will pay the hospice at least 95% of the state's daily nursing home rate, and the hospice is then responsible for paying the nursing home for the patient's room and board.
- 237. Soon after the CHOW took place for the Pruitt-Bamberg SNF, Relator realized that the Pruitt/Pruitthealth organizations were set on manipulating and abusing Medicare/Medicaid laws, regulations, rules and manuals regarding hospice and nursing home care. On August 13, 2009, she received an email from Pruitt-Pruitthealth employee Brian Warwick, which mandated that all of the Defendant Nursing Homes exclusively use Defendant Hospice for all hospice care for patients residing in the Defendant Nursing Homes. See Exhibit 11, Item # 13.
- 238. Upon information and belief, all Defendant Nursing Homes were, explicitly or implicitly, required to exclusively refer all of their hospice patients to the Defendant Hospice, and, in a *quid pro quo* swapping arrangement, the Defendant Hospice was required to

exclusively refer all of its patients to Defendant Nursing Homes. These exclusive patient referral arrangements and agreements violated the AKS Statute, and the illegal remuneration which was the inducements for the referrals, solicitation of referrals, and ordering and recommendation of referred services, included, but were not limited to, the promises and agreements to refer to each other. Thus, all Medicare and Medicaid claims relating to patients referred to/from the Defendant Hospice and Defendant Nursing Homes were false and fraudulent claims.

Soon after the CHOW took place for the Pruitt-Bamberg SNF, Relator was instructed by Pruitt-Pruitthealth management that all Defendant Nursing Homes' patients who became eligible for hospice benefits had to enroll for hospice with Defendant Hospice, or they were to be kicked out of the Defendant Nursing Homes. Likewise, those patients of the Defendant Nursing Homes who, before the CHOW, were receiving hospice care from a provider other than Defendant Hospice, were forced to switch their hospice provider and elect Defendant Hospice as their provider, or they were kicked out of the Defendant Nursing Homes. Those existing patients of the Defendant Nursing Homes who qualified for hospice benefits but refused to enroll with Defendant Hospice were kicked out of their respective Defendant Nursing Homes. which Relator in particular knew occurred at the Pruitt-Bamberg SNF and the Pruitthealth -Aiken, LLC SNF facility. By threatening and coercing Defendant Nursing Homes' patients to accept Defendant Hospice as their sole hospice care provider, the Defendant Nursing Homes violated the patients' rights to elect hospice care and receive hospice treatment. Thus, all Medicare and Medicaid claims relating to patients referred between the Defendant Hospice and Defendant Nursing Homes as a result of the threats, coercion and abusive marketing tactic were false and fraudulent claims. 42 C.F.R. § 418.52.

- 240. Soon after the CHOW took place for the Pruitt-Bamberg SNF, Relator was instructed by Pruitt-Pruitthealth management that all Defendant Nursing Homes had to maintain a "quota" of hospice patients in their respective facilities. Again, the Defendant Nursing Homes, including the Pruitt-Bamberg SNF, were required to exclusively use the Defendant Hospice's services for such hospice patients. Generally, the Pruitt-Pruitthealth management's required quota of hospice patients for the Defendant Nursing Homes was 10% 20% of the SNF patient census.
- 241. In addition to the required hospice patient quota, the Pruitt-Pruitthealth organization and management, Defendant Nursing Homes and Hospice unlawfully gamed the Medicare/Medicaid system by routinely and fraudulently manipulating and/or coercing Defendant Nursing Homes' patients, who were about to run out of their Medicare Part A SNF inpatient coverage, to elect the hospice benefit in order to extend federal health care payments to the Pruitt-Pruitthealth organizations, maximize patients' Length of Stays ("LOS") and maximize profits for the Pruitt-Pruitthealth Defendants.
- 242. Upon information and belief, in addition to their foregoing coercive and abusive marketing tactics, the Defendant Nursing Homes and Defendant Hospice routinely and systemically falsely and fraudulently marketed the hospice benefits to potential hospice patients and their families in that the Defendant Hospice knowingly failed to provide an accurate description of benefits to hospice patients that they would actually receive in the Defendant Nursing Homes. Typically, the amount of nursing care, counseling, therapy, and social worker services provided by Defendant Hospice to patients admitted to the Defendant Nursing Homes were less than those provided by Hospice to patients who were not admitted to the Defendant Nursing Homes. Defendant Nursing Homes and Defendant Hospice knowingly, intentionally

and fraudulently failed to disclose the lesser care that the potential hospice/SNF patient would receive as a hospice patient residing in the Defendant Nursing Homes, and failed to disclose the kickbacks for referrals made between the Defendant Nursing Homes and the Hospice, and failed to disclose the exclusive referral arrangements and agreements between the Defendant Nursing Homes and the Hospice. Seldom would a patient's hospice plan of care treatment be followed as written. Likewise, the Defendant Nursing Homes were constantly urged and instructed by Pruitt-Pruitthealth management to maximize the LOS of their Hospice patients.

Upon information and belief, when the Defendant Nursing Homes had a patient 243. who was qualified for Medicaid benefits, and was also receiving the Medicare hospice benefit, Defendant Hospice would bill Medicaid for room and board, and then pay the Defendant Nursing Homes for the room and board of the patient. Upon information and belief, Defendant Hospice would routinely pay the Defendant Nursing Homes more than the Medicaid room and board reimbursement rate as an further inducement for continuing referrals of hospice patients, or provide other inducements, like assigning a certified nurse assistant ("CNA") to those Defendant Nursing Homes which housed large numbers of Hospice patients. Typically, the assigned CNA, which Defendant Hospice charged as hospice care reimbursed by Medicare, would perform duties which were supposed to be covered by the SNF staff. Likewise, upon information and belief, Defendant Hospice would bill Medicare for the hospice case management program, including services for nurses and invoices for medications, which should have been part of the underlying SNF benefits for which the Defendant Nursing Homes should have provided and been reimbursed by Medicaid. This was often the case when a Defendant Nursing Home had a large number of Defendant Hospice's hospice patients, and the Defendant Hospice would assign a nurse to the SNF facility who would provide services to patients which

should have been covered by the SNF's Medicaid benefit. Thus, the Defendant Nursing Homes and Defendant Hospice routinely and systemically provided such duplicate services which were medically unnecessary and unreasonable, and which resulted in knowingly materially false and fraudulent claims. Upon information and belief, Defendant Nursing Homes and Defendant Hospice knowingly and intentionally violated the AKS Statute by knowingly soliciting, offering to pay for, and paying remuneration for these referrals to each other.

- As a result of the foregoing threats, coercions, manipulations, marketing frauds, quotas, misrepresentations, many of the Defendant Nursing Homes'/Hospice's hospice patients did not qualify for federal hospice benefits, primarily because they did not have a true, legitimate diagnosis of a terminal illness with a life expectancy of six months or less. These patients were unlawfully and fraudulently receiving hospice care which were medically unnecessary and inappropriate, unreasonable under the circumstances, and for which they were not eligible.

  These patients' certifications and re-certifications as being eligible for hospice benefits were materially false and fraudulent. As a result, the Defendant Nursing Homes' and Defendant Hospice's claims for payment to the federal government health care programs and the states of Florida, Georgia, North Carolina and/or South Carolina, with respect these hospice patients, were knowingly materially false and fraudulent claims.

Norcross, Georgia, January 24, 2014 – UHS-Pruitt Corporation announced today that, after 45 successful years, the organization has changed its name to PruittHealth, and modified its branding to achieve a more unified image for its vast array of health care services. The new name and branding were premiered at the Georgia Health Care Association's Winter Convention at the Cobb Galleria, attended by more than 400 health care professionals from Georgia, South Carolina, Alabama, and Florida. PruittHealth also unveiled its new high-tech trade show booth, in which conference attendees were able to view videos and navigate interactive displays to understand the organization's unique model of care and spectrum of health care services.

"We recognized that, as we have grown over the years and added more and more services, it became increasingly difficult to communicate to our customers that we offer an integrated model of health care and support services." said Neil L. Pruitt, Jr., Chairman & C.E.O. of PruittHealth. "With this rebranding, we hope to eliminate confusion and strengthen our synergy. By streamlining the names of our service lines and offering a clearer picture of what we do, we are strengthening our identity. We've always stood for quality, and we always will...PruittHealth will help us to amplify that, and clearly articulate our comprehensive model of care to our customers and referral sources."

PruittHealth also launched the first phase of www.pruitthealth.com (http://www.pruitthealth.com/), their new modernized, user friendly website; with additional interactive features to be added in the coming weeks. By spring 2014, PruittHealth will change the names of its health care providers and initiate a full rebranding campaign in communities throughout the Southeast.

## **Sanction Check Procedure**

- 1. **Prior** to using the services of any vendor or purchasing any vendor products, please verify their status by performing the Sanction Check; <a href="https://app.sanctioncheck.com/Scripts/logon.asp">https://app.sanctioncheck.com/Scripts/logon.asp</a>.
- 2. Individuals should be checked with last name, first name and vendors by their full legal and d/b/a ("doing business as") names.
- Individuals and vendors should be checked on the OIG/GSA and SDN databases located on the Sanction Check website.
- If the vendor appears on the Sanction Check list, contact Contracting immediately. The vendor will
  then be put on hold through Accounts Payable and cannot be utilized by any Pruitt Corporation
  location until further notice by the Contracting Dept.
- 5. If you need a user id and password to login, please contact Preeti Desai in HR to assist accordingly.

## **Creating a Contract**

First step - submit the Contract Request Form along with Sanction Checks, liability insurance certificate, fee schedule and license (if applicable) to the Contracting Department.

Scan to contractrequest@uhs-pruitt.com or fax: 770-510-2436.

If the location has received the vendor's template, please fax that document along with the information listed above to the Contracting Department for review.

The standard turn around time for contracts is two weeks.

The Contracting Dept reviews/creates an average of one hundred plus contracts each month.

All contracts are generated through the Contracting Department. If your location has contract templates on file, please discard them.

Upon receipt of a fully executed contractual agreement, submit an A/P Add Vendor form along with the W-9 form for review for approval.

All contracts must go through the Contracting Department for approval and signature.

## **Contract Request Forms**

### Four sections

- Pruitt Location Information
- Vendor Information (including full legal and d/b/a names, physical address, phone and fax numbers, contact name)
- Emergency (check if required within 24 hours)
- Additional Comments

## A/P Add Vendor Information

Please check the approved vendor list before using a vendor for their services at your facility.

All employee requests should be sent directly to Accounting, fax number noted on A/P request form.

If the vendor is not an approved vendor, please submit an A/P request, sanction checks and W-9 for Marty Meighan (Vice President Contracting) to review for approval. Also, please note standard terms are net 60 days, unless contracted otherwise or approved per Marty Meighan.

If a vendor changes their address or company name, please submit an A/P request along with the updated W-9, sanction checks and a letter/ e-mail/ fax form vendor stating this change before the revision can be made within the system.

### A/P Add Vendor Information

All marketing/ advertising should be pre-approved through Matt Annis before commitment is made with the vendor. Once approved per Matt, please submit an A/P add vendor request along with back up documentation including Matt Annis approval, sanction checks, W-9. Note all yellow page ads should go through Matt Annis, we have a corporate vendor to provide these services.

If your facility is going to use a vendor on a regular basis (barber/ beautician, landscaping, housekeeping, physician, medical director, lab services, transportation, etc) a fully executed contract needs to be in place before using the vendor for their services.

Before submitting invoices to be processed for payment, please make sure the vendor is an approved vendor.

If a user id and password for Sanction Checks is needed, please submit a request to Preeti Desai in HR for assistance.

Please note Marty Meighan reviews all received A/P add vendor requests twice a week, unless an emergency. An e-mail will be sent to the Administrator to notify the vendor being approved/ denied including if vendor was approved as a regular or one-time vendor and vendor terms.
